## Your Partner in Success

Advanced Vision Morocco (AVM) is one of Africa's most relevant construction and infrastructure holding groups, focusing on electromechanical works in the industrial, commercial, residential, infrastructure, hospital and renewable energy sectors.

We deliver complex projects which we across 2 continents, with a clear focus on Africa. We follow our leadership's example to provide valuable services to clients, building partnerships in the community and delivering important resources such as universities, hospitals, factories, airports, and hotels.

### A Tradition-Rich History

AVM is a tradition-rich company with a history going back decades, starting in the Gulf. Today, we are a multinational corporation headquartered in Casablanca with over 450 employees, and a focal point for construction in the region.

Our engineers create value for clients and stakeholders alike. The knowledge, dedication, and commitment of our employees are the basis for our success.

We provide them with challenge, opportunity, and a mission; they provide us with ambitious effort and success. Together, we generate sustainable earnings and create value for our stakeholders.

### The AVM Ethos

Today, our reputation speaks for itself; a reputation based on delivering projects swiftly, efficiently, and well ahead of schedule.

It is striking how much AVM has changed over the years, and how much it has stayed the same. By investing in cutting-edge technology and fine-tuning operations, our company has adapted to the needs of a changing world, and risen to meet its challenges. All while safeguarding the same AVM *ethos* that has propelled us toward a horizon bright with possibility.
