

## Set up voice assistant control.

Setting up Amazon Alexa or Google Assistant to control and monitor your lock is easy.

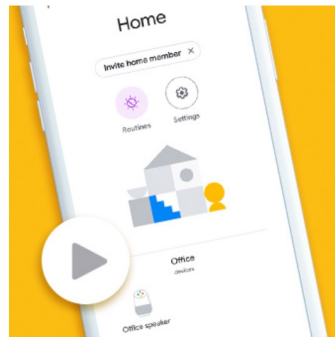

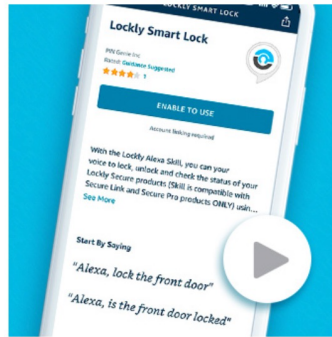

### We'll show you how!

Make sure your lock is connected to a LOCKLY Wi-Fi hub. Both Vision and Secure Pro models come with Wi-Fi hubs. You can add a hub to all other models (see offer below ↓).

### Setting up Amazon Alexa

“Alexa, is the front door is locked?” or “Alexa, lock the front door” Check out this easy-to-follow video for setting up your LOCKLY to use with your Amazon Alexa.
