

Creating lines out the door is as easy as one, two, three.

“FiveStars enrolled 6000 customers who spent \$200,000 at one business in just three months”

- Santa Clara weekly

1 Preparation

What You Need

Windows or Mac based POS
note: Win95, CE, LINUX, iPad not supported

Internet connection

One free USB port

Make sure your Point of Sale is accessible to our team for the entire install.

Make sure your employees are present for training on the FiveStars software.

2 Installation

What to expect

Be prepared for a phone call on installation day.

Set aside 30 minutes for the install. We will setup the FiveStars software and a barcode scanner for your Point of Sale.

Give your staff notice. We need to spend 10-20 minutes training them on the FiveStars software.

Think of any questions you have for us. We'll spend the remaining time making sure you're comfortable using FiveStars.

Before we go, we'll give you marketing materials to help you promote your new loyalty program!

3 Launch

You're up and running

Let's begin! After install, you can start using the program immediately.

Boost your program program on day one by encouraging employees to ask every customer:

“Do you have your FiveStars card?”

Remember: The more people you sign-up, the more successful your loyalty program will be!
