

MASS CLIMATE ACTION NETWORK

The Massachusetts Climate Action Network (MCAN), a 501(c)3 non-profit, fights the climate crisis one town at a time, with the help of local MCAN chapters – and you!

MCAN's role as a facilitator of municipal-level action is unique among Massachusetts environmental groups. The organization seeks to empower its local chapters by enhancing communication, promoting town-level projects that improve communities, decreasing climate change-causing pollution, and reducing development time for those projects. MCAN speaks on behalf of all chapters to influence Massachusetts energy and climate policies and programs.

How We Work:

- Support local MCAN chapters to implement change at the municipal level. Municipalities have been the most active level of government to fight climate change on a worldwide basis.
- Advocate at the state and regional level for policies and programs that will benefit municipalities and their citizens.
- Facilitate peer learning and tool-sharing to effectively replicate successful programs from one municipality to the next.

Looking to get involved? We want YOU to be a part of the movement!
