## RECENT EXPERIENCE

### Writing and Marketing Consultant, Contract

Michigan State University Research Foundation November 2022 – Present

- Achieved a 98% funding success rate, as a leading grant proposal writer among 20 Michigan Economic Development Corporation SmartZones, securing over \$800,000 for economic growth.
- Write executive summaries, press releases, news stories, websites, and brochures to boost visibility and market presence for over 50 high-tech, high-growth startups.
- Ensure consistent voice in multi-author documents while preserving each client's strategy and messaging.

### Writing and Marketing Consultant, Self-Employed

Sarah Says July 2022 – Present

- Secure and manage public and private sector clients, producing high-impact B2C and B2B content.
- Conduct research, write, and optimize content using SEO strategies and keyword integration.
- Produce advertising copy, websites, landing pages, blogs, articles, features, and professional documents such as cover letters, resumes, proposals, presentations, newsletters, and reports.

### Writing and Marketing Consultant, Contract

Crowe LLP March 2024 – March 2026

- Developed persuasive content for Fortune 500 executives, supporting major investments in premium financial services. Clients included Salesforce, Stripe, Caterpillar, Chubb, and Nucor.
- Collaborated with executive leadership and client service teams to define key messaging and create cohesive pursuit materials.
- Maintained communication with clients to ensure alignment with emerging trends and evolving needs throughout the sales process.

### Writer and Marketer, Full-Time

Michigan State University College of Human Medicine June 2021 – July 2022

- Increased recruitment for the \$3,500,000 MI CARES grant by 54% through strategic content and storytelling.
- Authored a Journal of the American Medical Association article published in a record 18 days, receiving 6,000 views soon after.
- Managed and optimized content for the grant's website and social media without a budget, achieving over 2,500 reactions on a single organic post.
