DIGITAL ENGINEERING POWERHOUSE

Company Overview

Established in 2018, Esshva is a digital product engineering company that offers innovative solutions and services to meet the diverse needs of the digital age. With a global presence and offices in Sri Lanka, the United States, Australia, and Dubai, we provide exceptional support to clients worldwide. We meet 508-accessibility compliance, whilst tailor-making our offerings to various industries, showcasing our expertise and versatility. Our young and dynamic team fosters a culture of performance, excellence, and innovation. We are dedicated to empowering the digital age and facilitating digital transformation for organizations worldwide through cutting-edge technology. As a trusted partner, we help companies navigate challenges and embrace opportunities in the digital era, aiming to take their business to the next level.

“
Experience the Esshva advantage and witness the transformative power we bring to your business. Partner with us to unlock untapped potential, embrace innovation, and embark on a journey of unparalleled growth. Together, we'll redefine what's possible in the digital age.
”

Growth Mindset, Enterprise-level Results

We combine the agility, innovation and ambition of a startup with the unwavering standards of an enterprise. This means our clients enjoy the best of both worlds. We offer the flexibility to tailor-make inspired solutions that align with your budgets, timelines, and requirements while ensuring that every aspect adheres to the highest standards expected by enterprises.

Unleashing the Power of Experience

Our dynamic and diverse team of experts brings a wealth of experience from across various industries and shares insights that help clients do better, faster and more profitably. By collaborating and sharing their knowledge, we gain a deep understanding of the unique nuances of your business. This allows us to streamline workflows, boost productivity, and provide tailored solutions that truly meet your specific needs.

Passion, Endurance, and Excellence

At Esshva, we are driven by passion and fuelled by a commitment to excellence. We have the endurance to go the extra mile for our clients, ensuring their success and growth. With loyalty, trust, and reliability as our guiding values, we forge enduring partnerships that propel businesses to new heights.

Sustainability, Diversity and Inclusion

At Esshva, sustainability, diversity, and inclusion are integral to our operations. We have a diverse team, embracing individuals of different levels, ages, and genders, enriching our company culture and enhancing client service. We implement paperless office and waste management policies to reduce our environmental impact. We prioritize employee growth, offering opportunities and fostering a supportive work-life balance. Our commitment to sustainability, diversity, and work-life balance translates into increased efficiency and productivity, benefiting our clients with exceptional results.

What
Makes Us
Unique

Our Offering

Esshva offers a comprehensive suite of services designed to empower businesses in the digital age. We harness the power of artificial intelligence and data science to develop user-friendly mobile applications, robust software solutions and optimized IT infrastructure. Our cutting-edge services enable clients to enhance performance, drive innovation, and create exceptional user experiences.

Mobile App Development:

In today's mobile-first world, our team of skilled software developers specializes in creating user-friendly and high-performance mobile applications. Whether it's iOS or Android-specific apps or utilizing the powerful hybrid frameworks for cross-platform development, we have the expertise to deliver exceptional mobile experiences.

Micro Services:

From ideation to concept development, implementation and launch Esshva has helped numerous startups with micro services which have enabled them in their digital transformation journey.

Software Product Engineering:

Our experienced software development team provides comprehensive support to clients throughout the entire software development lifecycle. By incorporating best-in-class architecture, quality assurance, and robotic process automation, we deliver exceptional results. We have a deep understanding of complex client requirements and leverage the latest microservice architecture to create customized software solutions. Through the use of metaphorical software robots and AI workers, we automate complex business processes and scenarios while maintaining superior quality through a combination of manual and automatic quality assurance solutions. Our commitment is to exceed expectations and ensure top-notch quality at every step of the way.

Cloud Services:

Our cloud team of expert engineers specializes in infrastructure capabilities, employing global industry best practices to cater to the unique needs of our clients. From facilitating seamless cloud migration and providing comprehensive cloud server management to automating software delivery through CI/CD pipelines, our team ensures efficient deployments, robust server operations, and streamlined software releases. With a focus on complex deployments, data security, and reliable support, we help organizations leverage the full potential of cloud technologies.

Machine Learning:

Leveraging the power of predictive analytics and advanced algorithms, our skilled data scientists construct predictive models that generate valuable insights. By optimizing processes, we enable swift decision-making, providing our clients with a competitive edge that drives revenue growth. We have helped clients across industries construct predictive models for finance, marketing, customer analysis, social media sentiment analysis, online marketplaces, and supply chains through the power of data analytics.

Our
Services

At Esshva, our team's brilliance and diversity are the pillars of our success. We bring together a harmonious blend of multifaceted skills, extensive industry exposure, and unparalleled experience to create innovative solutions for the digital age. Our corporate culture is deeply rooted in embracing diversity and fostering exceptional performance, all while maintaining a healthy work-life balance. With a workforce comprising individuals from diverse age groups, ethnic backgrounds, and genders, we benefit from a wealth of perspectives and insights.

We believe in the philosophy of working hard and enjoying life to the fullest. That's why we prioritize providing our team with ample opportunities for rest, family time, and pursuing personal interests and hobbies. Through our "Beyond the Lines of Code" initiative, we organize a variety of extracurricular activities that allow colleagues to connect, socialize, and have fun together. These activities have not only fostered stronger teamwork and collaboration but also struck a perfect equilibrium between work and enjoyment. Furthermore, we promote work flexibility and remote work options, providing our employees with additional opportunities to achieve a healthy work-life balance.
