Ombré Cosmetics

Founded by Emirate entrepreneur and beauty bawse, Nadia Al Mahdi in December 2017, Ombré is a brand that celebrates the unique diversities in women. Inspired by the experiences she had to go through as a child, the mental and emotional abuse she endured as a curvy young woman, Nadia wanted to develop a brand that celebrated the beauty in a woman, that goes beyond physical appearance. Nadia believed that beauty comes from within and manifests itself in ways beyond looks or size. She saw beauty in confidence, beauty in happiness, beauty in determination, and beauty in being able to accept oneself for who and what you really are.

Ombré Cosmetics is a line of quality beauty and makeup products, made to enhance the natural beauty in women using luxury blends of pigments and formulas to ensure the products are durable, long lasting, safe and comfortable.

Ombré is designed to empower women from all walks of life and encourages each woman to embrace womanhood, whilst appreciating and embracing her own inner beauty with pride and confidence.

All Ombré products are made adhering to international quality standards and tested for consistency and safety for use. The products are carefully formulated and designed without the use of any harmful chemicals. Using a rich blend of anti-ageing formulas including Vitamin C and E, the consistent use of Ombré products will assist in gradually fading away dark spots and gently brightening the skin, giving its users an elegant and natural glow.
