

Dear Parent/Guardian of Cobb County Student,

The Cobb County School District's number one priority is student safety, so we reach out today to inform you of recent events that could impact your child. As we are sure you may know, clown "sightings" have been reported across the nation, some of which have resulted in said clowns committing physical assault on passersby. We write to inform that there has been a clown sighting in Cobb County. The recently sighted Cobb County Clown, henceforth deemed as the Dastardly Triple C, is not currently known to have malicious intent, however given national circumstances it is important to inform your child to take necessary precautions in order to ensure their safety during this turbulent time for our nation.

A few important reminders include but are not limited to: Never approach comically small cars, especially if you witness 17 or more individuals vacating the vehicle in question. Should any circus music be heard immediately leave your current location. Remind your children of the age old proverb- "Circus music at morning, children take warning. Circus music at night, children also take warning."

The Dastardly Triple C can be identified by the mischievous glint in his eyes, size 19 squeaky shoes, and his iconic cherry red nose (not to be confused with fire truck red). Should you or your child identify anyone fitting these characteristics please take necessary safety precautions and call us at our emergency hotline at 1-800-CLOWN.

Please contact us via email at findthecobbcountyclown@cobb.k12.ga.us if you have questions or any information regarding the Dastardly Triple C or one of his cohorts.

Regards, Cobb County School District
