

# Transforming Communities, Businesses and Lives

Since 1981, we've been guided by a simple mission: Strengthen our communities where we live and work by sharing our time, people and resources. By providing capital and asset management services to clients across many industries, we help companies grow their business—but our investments don't stop there. We're committed to giving back to nonprofits and dedicated to finding opportunities for our employees to excel.

**The result?** Enduring relationships that help us make a bigger impact on our communities than we could ever do alone.
