

3 RED-HOT TOOLS

for summer

PLUS 1 FOR HIM!

SLICK TRICK!

THE HEAT IS ON! It's not just the temperature that's rising—so is your style quotient. And that means you need the right styling tools to take your mane moves to the next level. Straight from the hair pros at Andis, here are three must-have plug-ins you gotta grab. Oh, and hey—there's a bonus tool for the big man, too!

1

1" PROFESSIONAL CERAMIC FLAT IRON

You can do the usual straightening details for silky-sleek looks, or you can do a flick of the wrist to create casual curls. The choice is yours!

- the details:* Ceramic technology helps lock in moisture and evenly distribute heat, 30-second heat-up, 20 variable heat settings, max temp of 450 degrees.

GET SWIRLY WITH IT!

2

1" PROFESSIONAL CERAMIC CURLING IRON

Ringlets, spirals, twirls, curves—call them what you will, but you can call all of them forward with a classic round-barrel curling iron.

- the details:* Ceramic-coated barrel helps retain high heat for optimal efficiency, 30-second heat-up, controlled temperature settings, auto shut-off, covered end cap for safe use.

3

1875W DRYER

If the breeze isn't quite doing the trick, then plug in an awesome blow-dryer to achieve oh-so many styles!

- the details:* Two heat/speed settings, cool-shot button, comes with a styling pick and concentrator attachments.

BLOW AND GO!

one hot one for him! SELECT CUT 5-SPEED CLIPPER

Hey! You don't even need to plug this one in—after you charge the battery, of course... This clipper clipper boasts over four hours run time from a single charge and features 5-speed control for cutting all hair types. Equipped with an adjustable ceramic blade, from 1mm to 1.9mm, and digital LCD display to show speed and battery levels. The clipper is part of a 10-piece kit, which comes complete with reversible attachments for up to four cutting lengths.
