### WEBINARS

Unlock Seamless  
WordPress Migrations  
with WP Engine

JULY 24, 2024

## Staying ahead of migration frustrations

Change is never easy. And when it comes to website migrations, it can be downright tedious.

Our recent webinar brought together nearly 200 agency attendees for an in-depth look at our [Site Migration Plugin](#) — along with other WP Engine tools that can shift your migrations into “easy mode.”

If you’re searching for ways to simplify migrations, why not check it out?

## Product spotlight: new beta feature

We are currently beta testing Edge Full Page Caching, available to any site using our advanced network. Check it out in the Cache Dashboard of the user portal for each site.

### Edge Full Page Cache (primary domain only) Beta

Stores the entire HTML output of the page and improves performance for most sites. Currently recommended for sites with basic interactive features like contact forms or RSS feeds and not using GeoTarget.

On

## More optimizations to come

And that's not all we have in store this year — check out our recent roadmap webinar to learn more about the tools we'll be unveiling in H2.
