Baroque Interiors

Intricate wood and stone carvings decorate the ornate stonework and private apartments of King William III and Queen Mary II at Hampton Court Palace. The king commissioned 17th century master woodcarver George Gibbons to carve the blossoming beechwood flowers which have inspired this luxurious stretch jacquard.

The Gardens at Hampton Court Palace

The grounds where Henry VIII once strolled were redesigned at the command of King William III to become the glorious gardens we see today and one of the most popular reasons to visit the palace. We created the autumnal floral to represent both the beauty found in the modern flowerbeds and the richness of their past.
