*It's the last chance to build the house of your dreams at Quinta Do Lago*

Set amid 2,000 acres of breathtaking forest, dunes and salt marshes in Portugal's Ria Formosa Natural Park is Quinta do Lago, a luxurious golf, leisure and lifestyle development over 50 years in the making. The exclusive resort is highly sought-after by buyers all over the world, thanks to its gorgeous setting, its low-rise, low-density building regulations, and its ecological, nature-first stance.

And now it's your last chance to buy a virgin plot in this highly desired resort. North Grove is a brand new development of 13 untouched plots overlooking Quinta do Lago's iconic North Course. These plots offer square footage ranging from 1,495 sq/m to 1,688 sq/m, and are designed for private detached villas with two levels with no architectural design restrictions – meaning buyers can create the first or second home of their dreams in this prestigious resort.

Quinta do Lago's residents also benefit from easy access to all of the estate's luxury facilities and amenities, including its award-winning golf courses, sublime restaurants, a boutique hotel, golden sand beach, and a premier sports hub, The Campus, with a gym, tennis and padel courts, swimming pool, cycling, group classes and personal training, recovery suites and sports rehabilitation.

'The launch of North Grove follows the significant demand for virgin plot developments within our resort – and many have been waiting for us to release more stock since they missed out on the San Lorenzo North plots in 2019,' says Sean Moriarty, CEO of Quinta do Lago.

'Despite ongoing demand, we have always released our products gradually as per our master plan and this enables us to preserve our natural surroundings. North Grove will appeal to developers, primary and second-home buyers alike – as they receive complete autonomy to build, design and style their own luxury property within one of the most sought
