

Letting you know something is wrong is your baby's first step to getting well.

Bringing your baby to
Mercer Health Systems
is the second step.

Whether it's treatment for an ear infection or a routine check-up, *Mercer Health Systems* provides the quality and compassionate health care you need for the little ones in your life.

In addition to general pediatrics, we offer specialized pediatric care in:

- endocrinology
- developmental disorders
- adolescent medicine
- child and adolescent psychiatry
- psychological evaluations and counseling

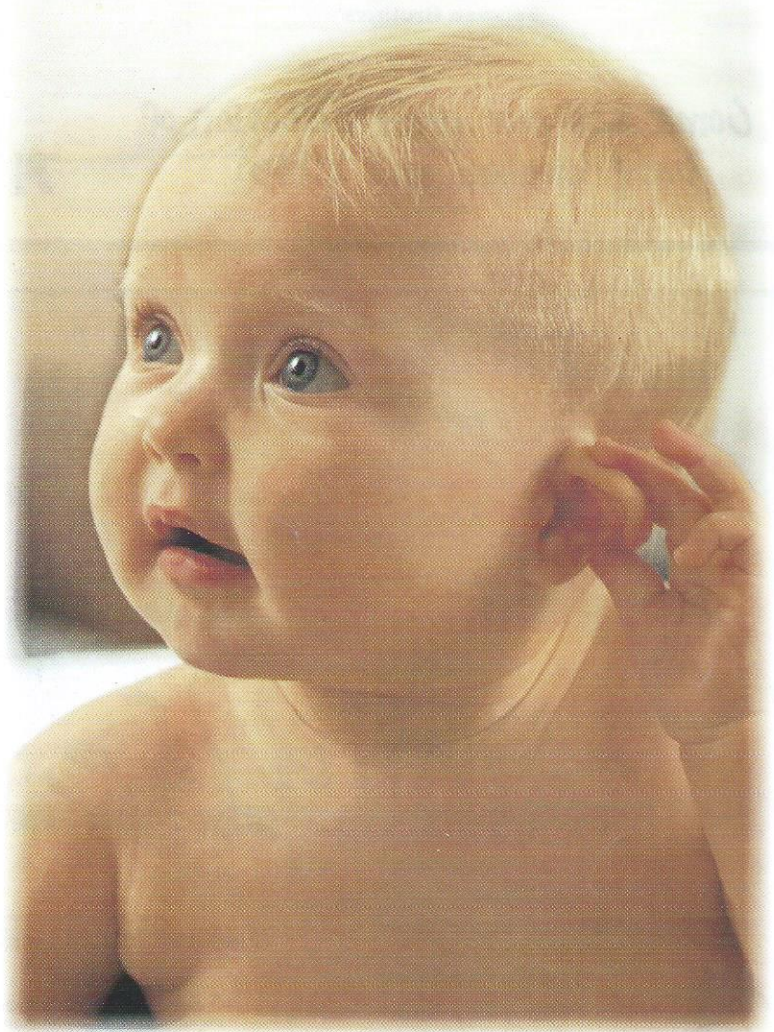

At the first sign of illness, turn to *Mercer Health Systems*, where you will find compassionate, quality health care for you and your family.
