

If your performance in the box seat draws more attention than the one on stage, *it's time to visit Mercer Health Systems.*

Mercer Health Systems is committed to providing quality health care to you and your family. As teachers of tomorrow's doctors, our physicians remain on the leading edge of new technology and procedures. As a patient, you benefit from their knowledge. As a community, we benefit from the services they provide as faculty at Mercer University School of Medicine.

Our staff includes family practice physicians trained to treat everyone in your family, from newborns to seniors. We also offer specialized care in:

- pediatrics
- pulmonary medicine
- child and adolescent psychiatry
- adult and geriatric psychiatry
- marriage and family therapy
- psychology

To make an appointment, call Mercer Health Systems, where you will find compassionate, quality health care for you and your family.

The rest of the audience will thank you.
