

Don't Let *Your* Little Dancer Miss Her Big Debut

Whether it's treatment for strep throat, an ear infection or just a routine check-up, **Mercer Health Systems** provides the quality health care you need for the little ones in your family.

In addition to general pediatrics, we offer specialized pediatric care in endocrinology, developmental disorders, adolescent and young adult medicine, and child and adolescent psychiatry.

Our staff of caring professionals are here to treat more than just the little ones in your life. In fact, **Mercer Health Systems** is equipped to meet most of your family's medical needs.

To make an appointment with a pediatrician or other medical specialist, call **Mercer Health Systems**, where you will find compassionate, quality health care for you and your family.
