

# Chelsey and her grandfather have a lot in common.

They both like fly fishing, fresh-squeezed lemonade and the doctors at ***Mercer Health Systems.***

That's because Mercer Health Systems provides quality health care for people of all ages. Our staff of family practice physicians are trained to treat everyone in your family — from newborns to seniors. We also offer specialized care in:

- internal medicine
- nephrology
- non-invasive cardiology
- pediatrics
- pulmonary medicine
- child and adolescent psychiatry
- adult and geriatric psychiatry
- psychological evaluation and counseling
- marriage and family therapy

To make an appointment with a family physician or other medical specialist call Mercer Health Systems, where you will find compassionate, quality health care for you and your family.
