## CARVE OUT YOUR CAREER PATH AT COMTRADE

### System Software & Tools

Build awesome products

Are you interested in learning more about how the global software business works? Do you want to build products that are used by thousands of companies across the world? Excited about partnering with Microsoft, HP, Citrix and F5?

Our team has developed dozens of world renowned software products and partnered with many of the largest software companies. Join our world class team and contribute to our award winning software business.

### Gaming Solutions

Create extraordinary player experiences

Be part of the exciting and constantly changing world of gaming. Do you enjoy analyzing, designing, programming, documenting and testing solutions? Are you enthusiastic about helping gaming companies deliver the best possible player experience? Do you want to learn and grow with an independent gaming software solutions provider?

We deliver open gaming platforms, technology solutions and professional services to gaming operators, vendors and regulators in online and land based sectors. Join our team and help build innovative solutions for gaming leaders like Bally Technologies, Genting and BRZ.

### Services

Bring innovation to life

Do you want to use the latest technologies to solve important business challenges for our clients? Do you see yourself working as part of a team that's helping companies accelerate innovation and grow their business? How about working on global solutions in areas such as FinTech, Mobility & Traveling, medical, logistics and energy?

If you want to be part of a software technology innovation company that partners with world leading organizations and mature startups to deliver successful business outcomes - this is the place for you.

GO AS FAST AND AS FAR AS YOU WANT IN THE DIRECTION YOU WANT
