

## YOUR STEPPING STONE TO SUCCESS

Comtrade works with clients and partners across the borders and from virtually every industry, which means there is always a big and exciting project underway. Instead of sitting on the sidelines and observing, interns are challenged by being involved in real-world assignments and asked to share their perspectives and solutions.

Students who successfully complete Comtrade's internship program develop marketable job skills and gain the invaluable experience of learning to work within a large and sophisticated system and processes early on in their careers.

Comtrade is a leading IT organization in South East Europe specializing in the fields of IT solutions, system integration and hardware distribution.

### Who we are

We have 16 companies in 11 countries across Europe and North America.

### Where we work

- Leading telecommunications operators
- Banks & financial institutions
- Government institutions

### Who should apply

Comtrade's internship program is open to all future graduates and young professionals without work experience. We offer short-term and long-term internship opportunities, training courses in the technology field and possibility for employment with Comtrade for the most promising students.

# THIS IS NOT A MICROCHIP

## IT'S THOUSANDS OF AIRCRAFTS LANDING SAFELY

Comtrade provides quality assurance and testing services that help our clients deliver safety-critical software for the avionics industry.

**At Comtrade, we see things differently.**

# THIS IS NOT SOFTWARE

IT'S A NEW AND BETTER WAY OF DIAGNOSING PATIENTS

Comtrade is helping medical device manufacturers design advanced solutions for data management and remote monitoring of critical diagnostic equipment.

## CALLING ALL FUTURE INTERNS

At Comtrade, we are always looking for the next generation of professionals who have what it takes to learn, lead and grow with us.

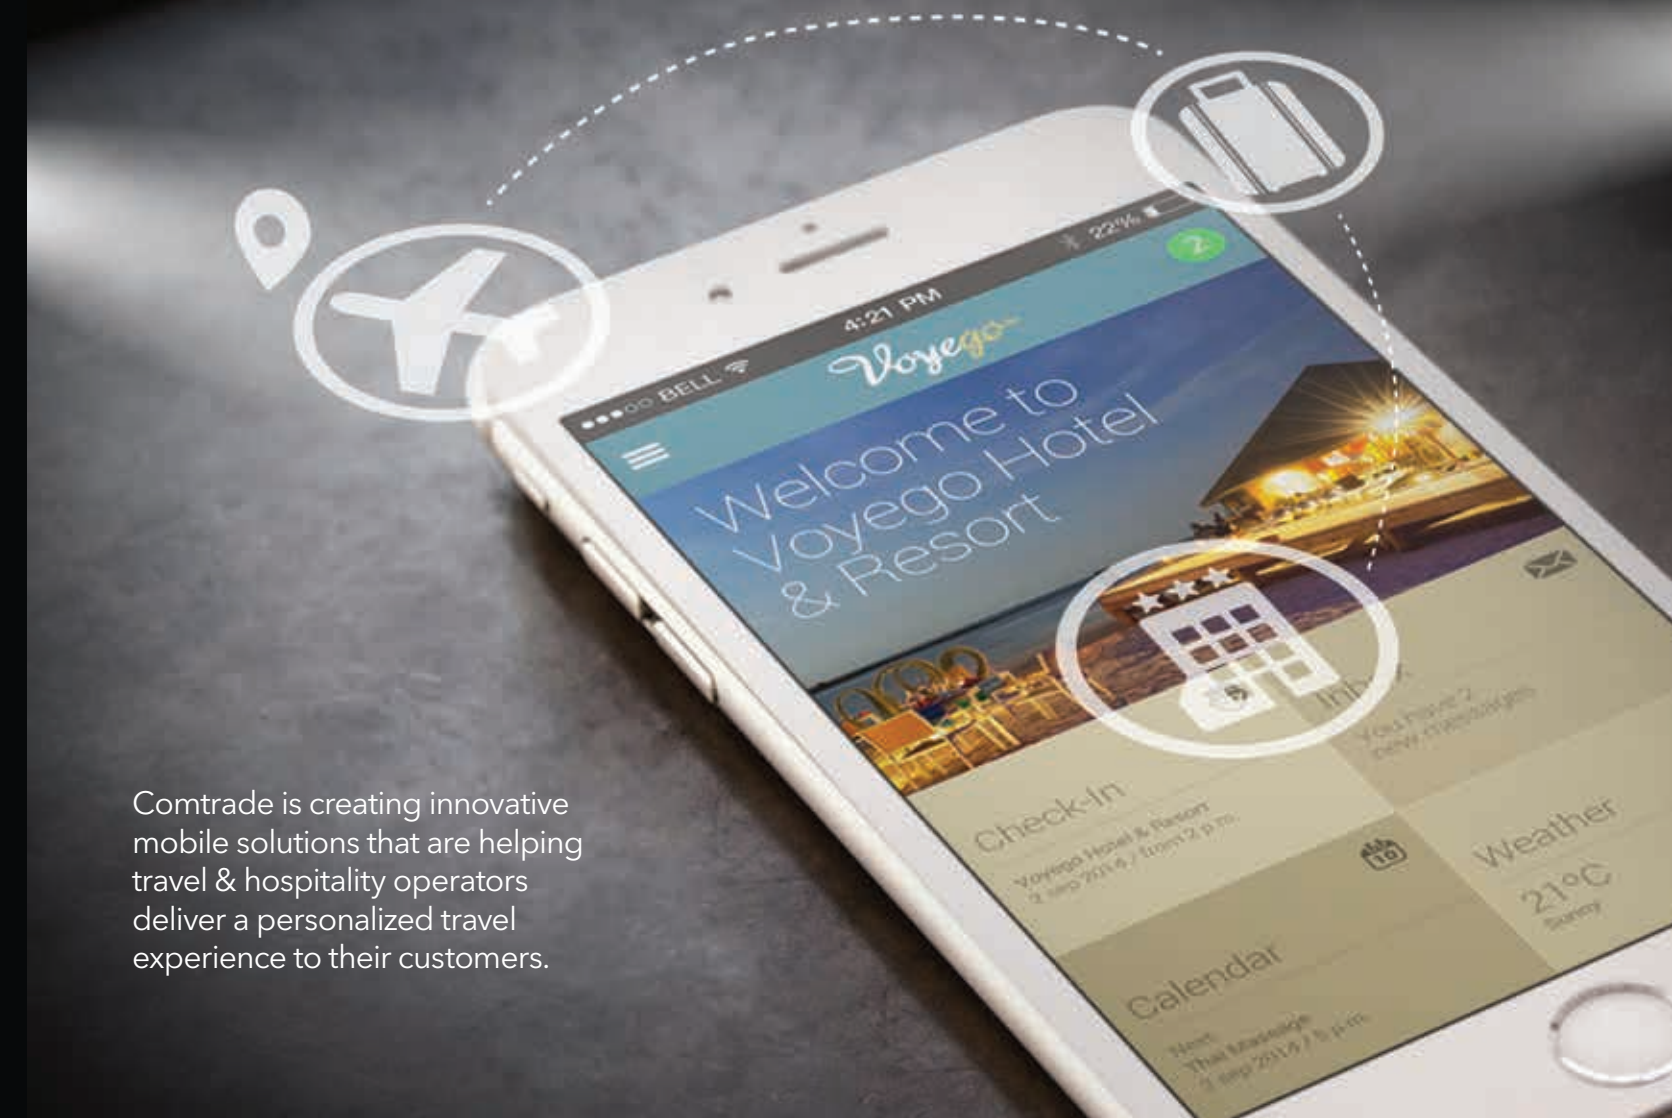

### A different kind of internship experience

We are a big company, but nobody feels small. At other offices interns may be fetching coffee and running errands, but not at Comtrade. We let you dive into the real action right away - the kind of action that puts your mind and skills to work.

Our highly engaging internship program is designed to immerse students into Comtrade's corporate culture and real work environment. You'll have opportunities to contribute to complex and impactful projects, work with successful teams, be exposed to the latest technology and learn from some of the savviest business people and brightest IT professionals in the industry.
