

## **Types of Probiotics for Your Cat**

Probiotics are a great way to help ensure your cat stays in good health. Just like in humans, probiotics are healthy bacteria that are used to keep our digestive tracts in good shape. Cats can benefit from a healthy digestive tract as well. In times of high-stress, probiotics can help cats stay healthy. If you are already feeding your cat high-quality pet food, you're on the right track to keeping your cat healthy! Probiotics will benefit your cat even more, though.

Side effects of probiotics are usually pretty rare, but just like any other supplement, you should ask your vet before giving your cat any type of probiotic.

So, what kind of probiotic does your cat need? Here's our list of reviews to help you pick out the perfect supplement for your furry friend.

### **Pet Ultimates Probiotics for Cats**

Pet Ultimates Probiotics for Cats helps support regular digestion and healthy skin. This brand of probiotics also reduces the stinky smell in the litter box, creates firmer stools and reduces shedding from your cat. It's a good choice for your cat if they've had digestive issues for awhile and you want to help, or if you just want to make sure your cat is at their healthiest.

The probiotic comes with a small scoop, you can portion out the perfect amount of powder to put on your cats food twice a day.

Pet Ultimates probiotics are ultra-concentrated and made in the United States in a certified GMP lab.

### **Purina Pro Plan FortiFlora Cat Probiotic Supplement**

This probiotic from Purina helps manage the digestive system of kittens and adult cats. Antioxidants and microorganisms are present in each dose of Purina FortiFlora to promote a healthy immune system and digestive system. Just put the recommended amount of powder to your kittens or cats food and they will be on their way to a healthier immune system. According to [Petsmart.com](https://www.petsmart.com), FortiFlora is the #1 probiotic recommended by veterinarians.

### **Nutramax Provable Health Supplement for Cats and Dogs**

Nutramax Provable Health Supplement is a good source of naturally occurring microorganisms for your cat and/or dog. The probiotics come in capsules to give your pet a healthier digestive system, as well as firmer stool. If your pet has recently suffered from an imbalance from antibiotic use, stress levels, food sensitivities and immune system related gastrointestinal conditions, Nutramax Provable Health Supplement for Cats and Dogs may be the perfect way to help your pet.

## **Vetri-Science Mega Probiotic Dog & Cat Supplement**

All-natural microorganisms in Vetri-Science Mega Probiotics help ensure a healthy digestive tract in dogs and cats. If your pet suffers from food intolerances, poor eating habits or a poor immune system, think about trying Vetri-Science Mega Probiotics. From a small capsule containing five billion microorganisms, it could benefit your pets health immensely. Cats only need to be fed ½ of a capsule per day mixed with their food.

### **PROBIOTIC for Cats**

Premo Probiotics for Cats is proven to help with different health issues such as diarrhea, constipation, yeast infections, gut inflammation, excessive shedding and skin issues. The concentrated powder is specially made for cats digestive systems. Each serving of this powder contains 1 billion CFU's of flora and FOS prebiotics. The FOS prebiotic helps produce even more healthy bacteria for your cats system to ensure that their health is at the best it can be.

### **TummyWorks Probiotic Powder for Dogs & Cats**

TummyWorks Probiotic Powder will help relieve common issues in your pet, such as: diarrhea, yeast infections, gas, bad breath, bloating and constipation. The probiotic powder supports a healthy digestive tract in cats and dogs, as well as a healthy immune system. If your cat has recently been through an antibiotic treatment, you should consider this probiotic powder. It's packed with ten beneficial probiotics and six digestive enzymes that will optimize digestive health.

### **Pet Naturals of Vermont**

Daily Probiotic for Cats by Pet Naturals comes in a duck-flavored chewable treat that your cat will be reluctant to take. It's beneficial to your cats daily health, but can also be helpful if your cat has recently had high-stress levels from an illness or traveling. The prebiotic and probiotic combination supports a healthy digestive system and a strong immune system. Each probiotic contains 100 million CFU's of Bacillus coagulans and 200 mg of FOS fiber, packed together in one piece. Each and everyone of Pet Naturals of Vermont products are NASC approved and veterinarian formulated.

### **Vetrinex Labs Probiotics for Dogs & Cats**

Vetrinex Labs Probiotics for Dogs and Cats can benefit your pet in many ways. If your pet has had any issues with diarrhea, yeast infections, constipation, allergies, itchy fur, gas, upset stomach, after antibiotic issues or digestive system problems, this probiotic could be a good choice to consider. This brand of probiotics contains a complete blend of seven beneficial strains to help your pets immune and digestive system.

## **Probonix Probiotics for Cats**

Looking for an organic probiotic for your cat? Probonix Probiotics for Cats is an organic, non-GMO liquid that's easy to give to your cat. Put six drops of the liquid onto their food or their water once a day to ensure their general and immune system health.

## **Rx Vitamins Essentials**

Rx Vitamins Essentials can help your cat with digestive tract issues such as diarrhea, constipation or even vomiting. This probiotic works hard to push good bacteria into your cats system and push the harmful bacteria out.

## **Nexabiotic Probiotic for Cats & Dogs with Diarrhea Treatment & Constipation Support**

This easy-to-use probiotic can treat your cats diarrhea and maintain good digestive health. Simply put the capsule into your pet's food, mix it up and it's ready to be fed to your pet. Nexabiotic Probiotic for Cats and Kittens contains a blend of 23 probiotic strains to support regular bowel movements and general health.

## **All-in-One Dog & Cat Probiotics**

This supplement combines probiotics, vitamins, minerals and enzymes in a powder to support your pets overall health. PureAll provides benefits for your cat or dogs hips, joints, digestive system, immune system, skin, fur and bones. The probiotic can be used on puppies, kittens, adult animals and even elderly pets. Each container has 100 servings which is easy to use and feed to your pets.

## **Animal Essentials Plant Enzymes & Probiotics**

Animal Essentials Plant Enzymes and Probiotics contains a beneficial blend of plant and microbial enzymes. This supplement supports your pets digestive system by breaking down fats, carbohydrates, cellulose and protein. Animal Essentials enzymes work over a broad pH range, so they stay active longer in your pets digestive tract and system.

Probiotics can be highly beneficial to your cat. It can help solve many issues that many cats have. From diarrhea to after-antibiotic treatment, probiotics can be a good choice for cat owners. If a cat's digestive tract is thrown off-track, it can compromise your cats immune system and overall health. If you notice uncommon symptoms in your cat, or you just want to make sure your cat's general health is superb, you should consider buying a probiotic for your cat today.
