Why Seventh Zen?

At Seventh Zen, we deliver the highest standards for purity, quality, testing, and transparency for your well-being. We feel strongly that you have the right to know the people and process behind the products you use. This unwavering commitment to quality and transparency drives our involvement in every aspect of the brand, from testing our soil and water, to selecting and planting the genetics we grow and formulating our products for purity, concentration, and consistency. Our goal is to provide the purist, all-natural lab-tested CBD products from our farm to your shelf.

About Us

We are seventh-generation farmers with a commitment to advocating for wellness and the healing properties of CBD. Our goal was simple – create a line of premium CBD products for those seeking to improve their well-being. To achieve this, we used our backgrounds in sustainable natural resource management and brought together a team of experts and leaders from across the agriculture, cannabis, and technology industries to help us. We carefully selected the highest-CBD hemp variety we could find, developed organic farming methods specific to our soil and climate, and integrated cutting-edge technology to reduce waste. From seed to shelf, we are involved in every step of the process from growing and processing to development and sale to ensure our customers get the best CBD products on the market.
