

# DREAMSCAPE

AUTUMN/WINTER 23

**SHERIDAN**  
EST. 1967

Dream on, dream away, dream big, dream a little dream of you. Beyond your wildest dreams, living the dream, building your dream world. Whether awake or asleep, our lives are shaped by dreams — a connected, universal experience, that's sensory, emotional and vivid all at once. Derived from imagination with just a touch of indulgence.

Introducing Sheridan's Autumn/Winter '23 Collection: 'Dreamscape'.

Create the space you've always dreamt about; one that combines all the R's: rest, relaxation, restorative and rejuvenation. Nature and nurture aren't pitted against one another anymore, they're working in tandem within your home.

Think purposeful and beautiful items; offerings that feel as good as they look. It's a simple pleasure, but a worthwhile one — from bedding to home decor to table linen, loungewear to towelling, kids to baby, it's about what we comfort ourselves with, and cocoon ourselves in.

Drawing inspiration from the natural world, botanicals turn fantastical thanks to the said dreamscape — from dark, sprawling and dramatic, to newness through surprising colour combinations, or ditsy designs that bring to mind the most stylish of decades gone by. Other perennial patterns are made over, a touch of old school cool, that never feels dated. Clashing colours, imperfect tactile textures or unique accents. Who doesn't love a little drama in their life?

Create a one-of-a-kind space that is a literal work of art, with original designs from Sheridan's in-house studio. . Large-scale, abstract prints, overlaid paper cut and collage, toile du Jouy that brings, well, joy. Time-honoured techniques like matelasse, jacquard, quilting, yarn-dyeing, embroidery are utilised, across carefully chosen fabrics and fibres: linens, cotton, TENCEL Lyocell fibres, recycled polyester.

With a wellness driven palette that is set to both soothe and inspire; accessible regardless of gender, age, interest. Classic colours are also refreshed, with an earthier touch that doesn't try too hard — transseasonal, for use for years to come.

# DRAMATIC SHADES & SPICED FLORALS

This season, for a more modern twist, nature's a little broodier — think dramatic florals, darker hues, deeper jewel tones. A touch of spice sprinkled throughout, with warmth introduced through new neutrals. We're talking dusky shades of pink, clay and khaki greens. The debate of nature versus nurture ends here; you get both in the one look.

It's not only the colours that will keep you cosy. Linens, cottons, and wools add an organic touch of texture — a feeling so good, you won't be able to keep your hands off it (or stop rubbing your feet against it). For a more masculine moment, incorporate leather and wood throughout the furniture; a rustic touch of cabin-core.

# GROUNDING COLOURS: KHAKEE COOL

Earthy tones have officially been declared the colour of 2023 — by multiple sources. Think forest greens, cool mid-tone browns... think khaki. When we talk grounding colours, we're talking literally; the more subtle shades of the outdoors.

The perfect meeting of masculine and feminine, you can borrow from the trending dark academia; where tweeds, plaids and sophisticated stripes are made to be layered atop one another. Tactile texture adds to the relaxed narrative; slub yarns intentionally forming irregular lines, embroidery forming delicate motifs.

*Abbotson Stripe*

Incorporating our beloved Belgian flax linen, for a feeling so lightweight and breathable. Plant-derived, this fibre never tries too hard — it's effortless, relaxed, and easy to live (and style) with.

# AUTUMN AWAKENING

It's time to head back to primary school, with primary colours — yellow, blue and red. But not like you've seen them before. Grow all the way back up, with the introduction of our newest colours: burnt butter, spa and papaya.

Mix warms and cools for a thoroughly modern look. In the realm of wellness, the colours you bring into your space can sway your mood. Pops of yellow bring positivity; swathes of blue encourage calmness and tranquility; exuberant touches of red add a playful note.

As for where you'll find all three? Designs that boast charming botanic and foliage illustrations. Bringing newness to a perennial favourite, choose offerings that also experiment with placement and scale — perfect for the modern man, who knows that beds for men don't have to be boring.

# FEEL GOOD PRINT & PATTERN

Nothing quite brings comfort — and certainty — like the past.

A retro resurgence that's both timeless and contemporary. Charming, feel-good designs play with earthy colours and bold prints. Autumnal oranges, winter pinks and rejuvenating greens — warm-toned, for a cosy touch. Looks you won't find anywhere else; hand

Small, ditsy prints and motifs that boast busy repeats — attracting the best kind of attention, and bringing a bit of fun into your home. And when we say these looks are one-of-a-kind, we mean it — they're dreamt to life, and hand-painted by our own in-house artists.

With double sided offerings to choose from, you can truly make it your own through considered styling. Or by just flipping something round for a whole new look — it's that easy.

# EVERYDAY ESCAPISM

From routine to ritual. Elevate the everyday by getting in touch with yourself. All it involves is going back to basics, within your bathroom.

Cherry blossom pinks and soft cloudy whites are plucked straight from the outside environment, and used across plant-derived cottons and linens. Fabrics that not only look good, but feel good against your bare skin.

It may be the smallest room in your house, but that doesn't mean it's not the most restorative. That's the power of well made basics, that help you prioritise your wellbeing — a soak in the tub with bath salts, a steamy shower with essential

# SELF CARE STYLING

For fans of cottagecore gingham and old school cool plaids, comes the mismatched yet making it work geometrics.

Rejecting regular patterns as you know them, with the ever growing trend of checkboards and statement stripes. These gender-neutral designs allow for self-expression as self-care; eclectic exuberance and clashing colours across your loungewear.

Stay groovy, baby.

# STAND OUT STRIPES

Green light lounging around — even if the outfit you're doing it in is more energetic than you.

No longer do you have to borrow your partner's rugby shirt — the popped collar and buttoned placket is right here. And continuing the 'borrowed from the prep-school boys' cool — a-line shorts, with the distinct boxer silhouette.

You've truly earned your stripes with the organic cotton fabrication; soft yet structured — so you'll look smart, even at your most relaxed. GOTS certified.

*Cypress Shirt & Pant*

Classic stripes are given a contemporary-collegiate touch; bold colours are used along calming whites, patterns are played with through scale.
