

GET IT ON TIME

Hello Kathryn,

My name is Tina, and I've been volunteering for the Get It On Time campaign. Why? Because I know first hand just how awful it is to be in hospital and not get your Parkinson's medication on time.

When I went to hospital, not only did they forget to give me my medication, but I was also left hours waiting to have a scan.

When the machine was finally free, my tremor was awful and I couldn't sit still. Hospital staff urgently need to understand why people with Parkinson's need their medication on time, every time.

"I've been working to get Peterborough hospital to improve"

That's why I've been going out into my community to build more support for this campaign. The more people who sign our petition, the louder our collective voice will be and the more we can push the NHS to take action.

Are you able to help? You can do so by downloading a paper version of the petition and encouraging people you know to sign it.

If everyone who gets this email collects 10 signatures, we could really boost our numbers. No effort is too small.
