SPRING / SUMMER '22

SHERIDAN
EST. 1967

If you could go anywhere — where would you go? A place, a feeling, a moment in time? This season, we're discovering Somewhere — somewhere else, somewhere outside, somewhere tranquil, somewhere remembered — your somewhere, wherever that may be.

Open the window to soft morning light dappling through the greenery, summer breezes gently dancing across your body, golden sand warming your feet and cool waves gently lapping the shore.

Introducing Sheridan's Spring/Summer '22 Collection. Build your space the way you want, collect elements from the outdoor and indoor world and style them together.

Like patterns, camouflaged in creative and surprising ways, or conversational designs that add character and scale. Touches of nature; botanical inspired embellishments and motifs taken from the outside world. Taking classic offerings, like checks and stripes, and turning them into something unexpected. Layering, repeat elements, style hidden focal points.

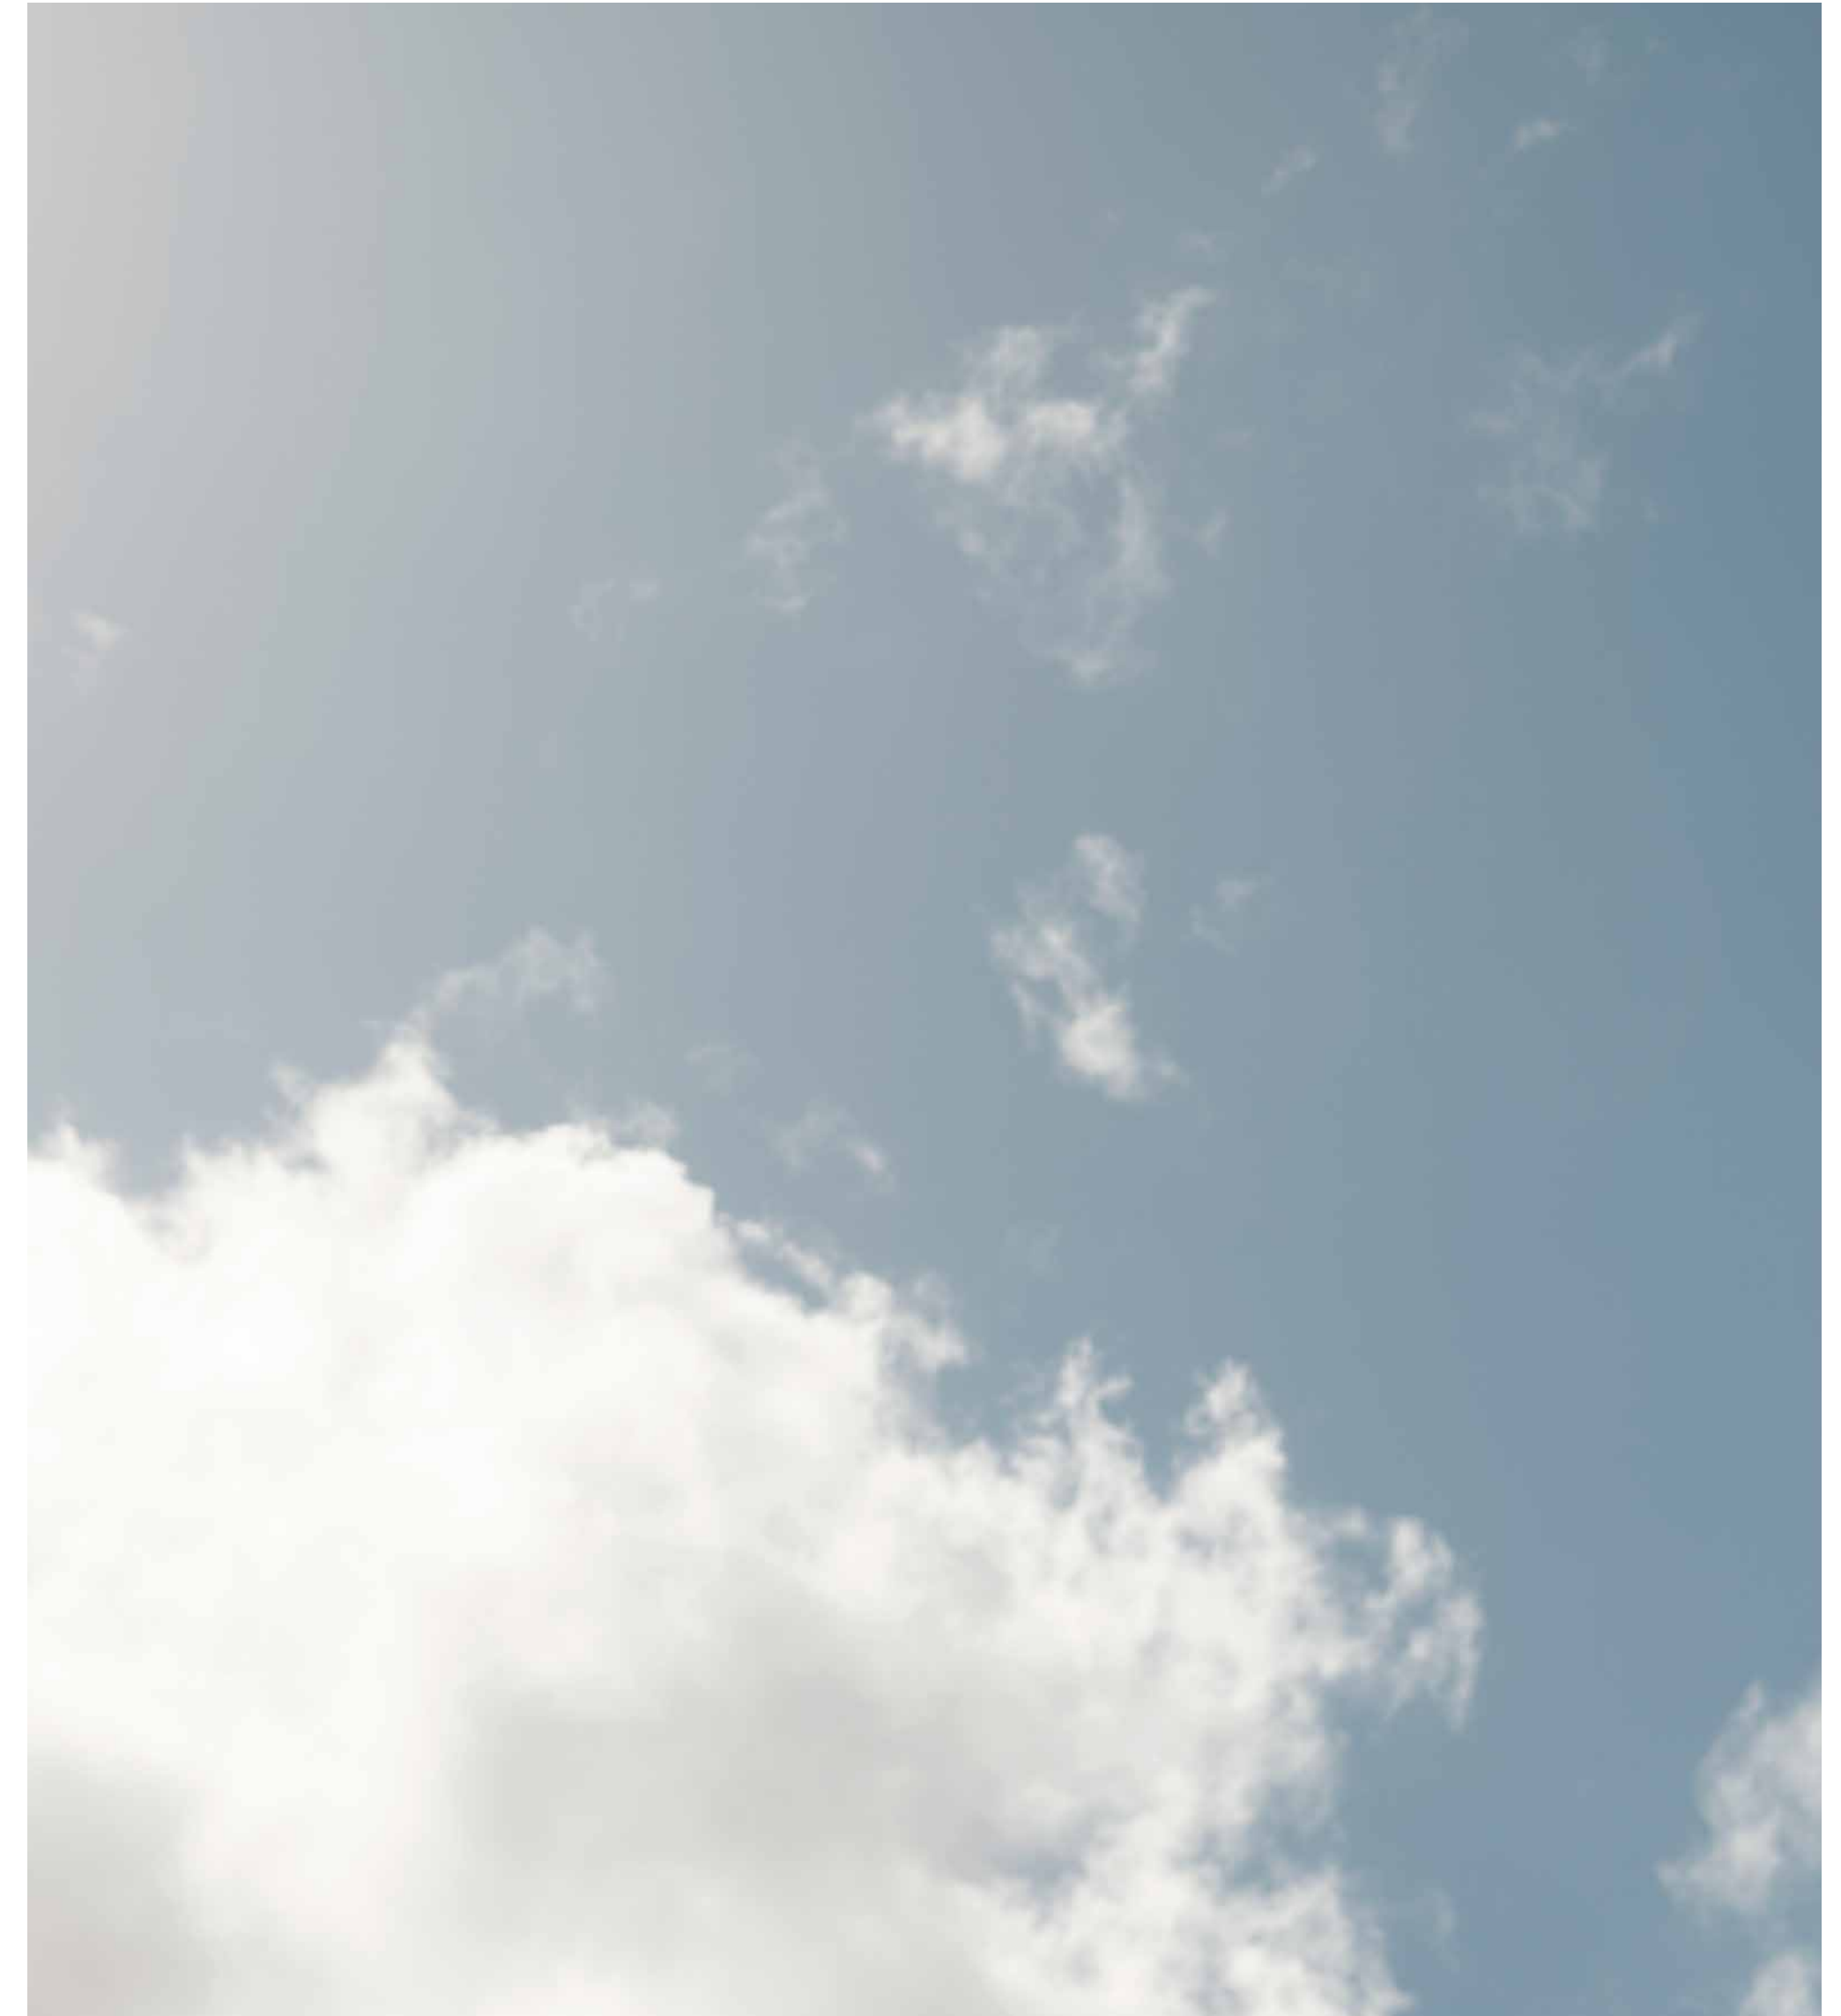

Extracts from everyday living, seen across bedding, home decor, bath, loungewear, kids & baby.

Sheridan's team of experts have created and crafted a collection that serves your wellbeing, fitting your needs. Tactile designs and intricate detailing amplified — jacquards, layered weaves, matelasses, twills, terry towelling, embroidery and more.

Whether subtle and soft or hyper saturated and multi-layered, colours add optimism. Combine and contrast pretty pastels with grounded earthy hues; rich shades of a sunburnt country; blues deep enough to dive into and greens to relax upon.

Reverence for the natural environment is seen through the selection of hand-chosen fabrics and fibres: textured linens, smooth TENCEL™ Lyocell fibres, soft cottons — expanding upon recycled options and those that divert waste.

Balancing function and utility with relaxed refinement — versatile offerings that will accompany you through spring, summer, and beyond.

AMPLIFIED COLOUR

Let us transport you somewhere magical, where your senses are in tune and your body instantaneously relaxes — a space for dreaming, recouping and relaxing. All of this, within the comfort of your bedroom.

Sollari will fulfil nature lovers' cravings for the outdoors. A deep base shade, reminiscent of cool ocean swims and warm summer skies, makes for a rich indulgent canvas — ideal for its bright blooms in jewel shades.

Inspired by tropical hideaways and balmy days and nights, this one-of-a-kind artwork was hand-painted in our Design Studio. Crafted with Belgian flax linen, this breathable quilt cover can be enjoyed all year round.

TIMELESS STRIPES

Linen lovers rejoice, with a collection made expressly for you. Abbotson, one of our most beloved offerings, is back. This time with stripes; a timeless pattern reinvented.

The key ingredient for a well-styled room, Abbotson Stripe takes style cues from the classic button-up. With a contemporary touch, it's reminiscent of laid back summer looks — striking the perfect balance between style and structure.

Lightweight and breathable, enjoy this quilt cover no matter the season — 100% Belgian flax linen, it'll last you years to come and soften with each wash.

For a modern look, style with dark neutrals to make the fine lines stand out. Plaids act as a point of contrast — proving its timelessness. Or pair with contrasting coloured striped pillows to continue the theme; a contemporary feel.

NATURE INSPIRED

Taking cues from the countryside, this design takes us somewhere quiet — both relaxing and charming. Bringing to mind rolling hills and endless fields of flowers, Cason is hand painted by Sheridan's Design Studio. It's easy to see the inspiration behind this artwork, with trailing wildflowers and meadow blooms so realistic, you can almost hear the chirping of birds and lazy waterways trickling by.

Perfect for those who prefer understated luxury in their bedroom, it's crafted from 100% organic cotton, with a modern double weave texture that boasts a unique feel. The washed finish and tailored edge complete the style.

Enhance the tranquil ambience with crisp white sheets and throws. Layer bedding accessories in soft pastels that highlight the shades throughout. Borrow from our Reilly Stripe Collection in marmalade, for a spirited look.

DREAMY DETAILS

Elevate your space with the “special something” you’ve been searching for — unique, eye-catching texture that’s set to add depth to any bedroom.

This bedding ensemble features soft hues and subtle silhouetted florals, a contemporary outing from Sheridan that offers pure bliss — to look at, and to sleep in.

Inspired by traditional wallpaper florals, we’ve transformed it into an inimitable style thanks to our modern twist — hand drawn blooms translated into a woven jacquard design.

Smooth against the skin, it’s crafted from cotton sateen; boasting an intimate feel that calls you into the bedroom. A truly luxurious piece, it’s finished with a generous tailored edge.

Create the ultimate haven by continuing the dreamy colours with soft throws like Maelle, and richly textured offerings like our Brannen cushion. Fall asleep in muted hues like chai, across our loungewear offerings.

SOFT & REFINED DETAILS

Striking a delicate balance between old school luxury and modern luxe. Tamber is a dreamy addition to any household; spoil your guests or yourself with this coordinated set. Transforming an ordinary bed into a luxurious haven.

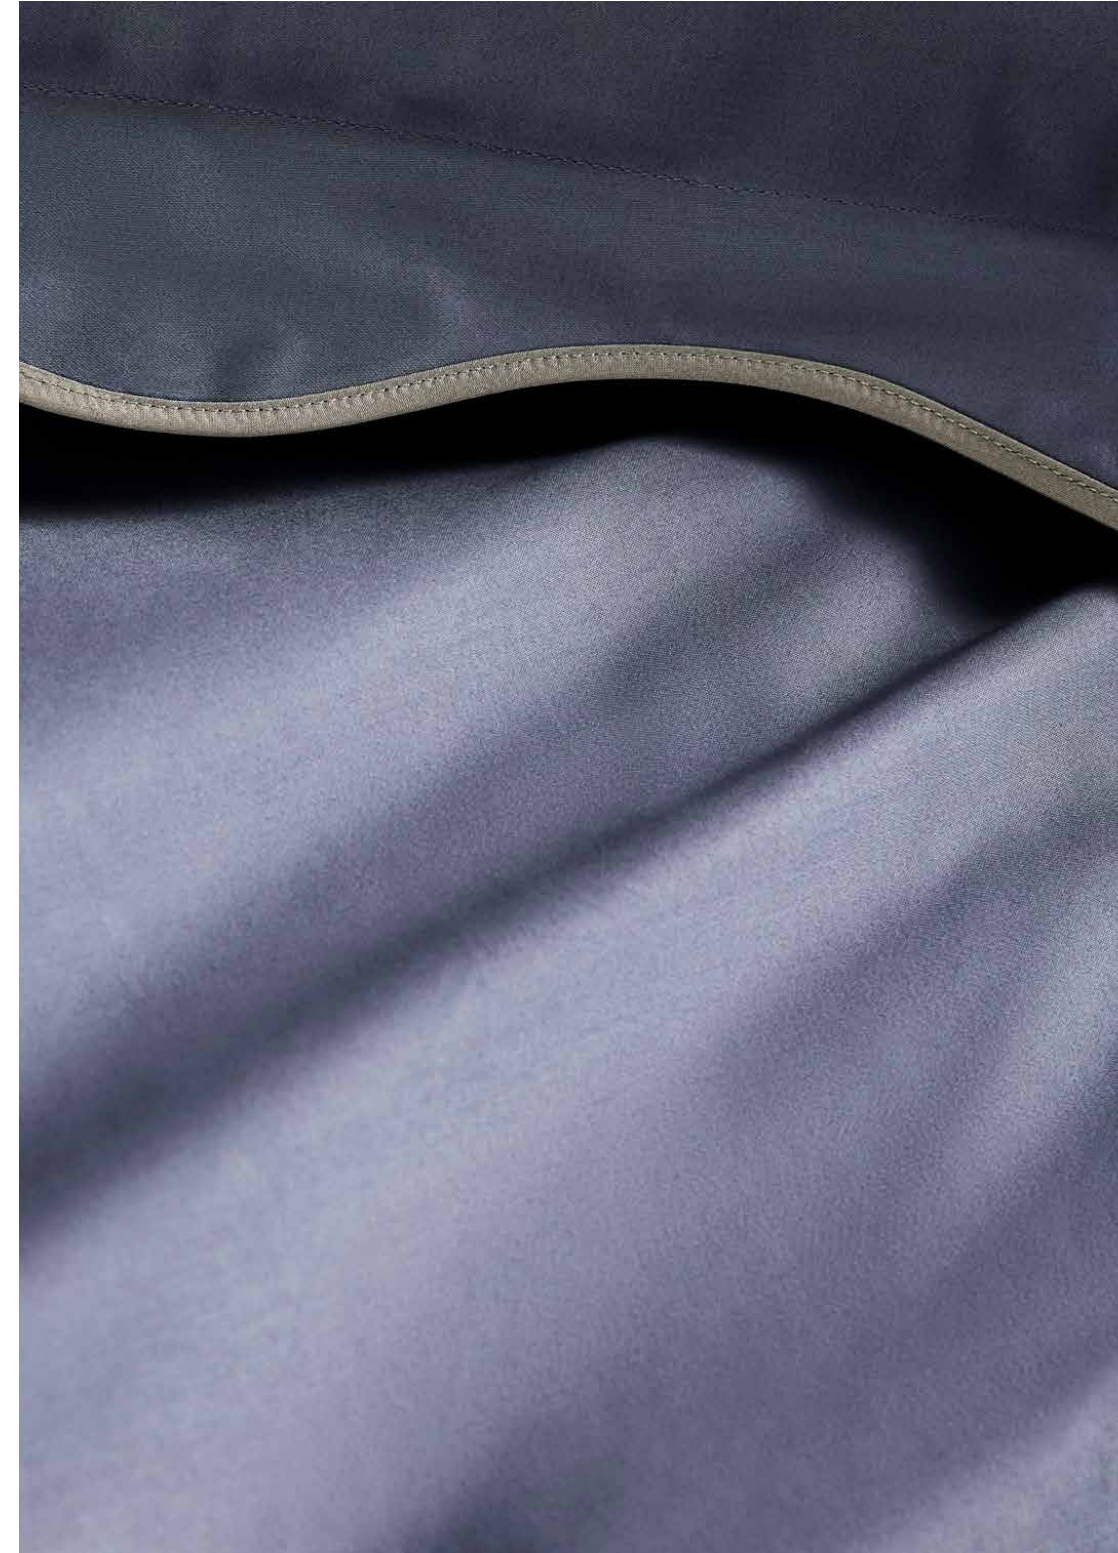

Boasting sophisticated features, the set offers a lustrous sheen and scalloped edges in a contrasting colour. Smooth and inviting, it's crafted with a cotton Egyptian blend sateen fabric.

Pillow cases with the same softly curving sides make styling easy. Deep blues across sheeting, cushions and throws make for a rich look you'll never want to leave. Play with contrast through shades of olive or floral prints.

VIBRANT FLORALS

Nature is calling... from the comfort of your bedroom.

Featuring a lively background hue plucked from the very thing it's inspired by, this collection allows for a relaxing, yet revitalising, environment. This may very well be the refresh you've been searching for — in your bedroom, and throughout your life.

Evoking a sense of outdoor living, this vibrant floral pattern features oversized soft-toned blooms, and an elegant foliage overlay. Printed onto cotton sateen, it's smooth against the skin and comfortable to sleep in.

Impactful on its own, we suggest styling with our Abbotson Linen Collection — a delight for multiple senses. Complement the look with crisp whites and calming neutrals.

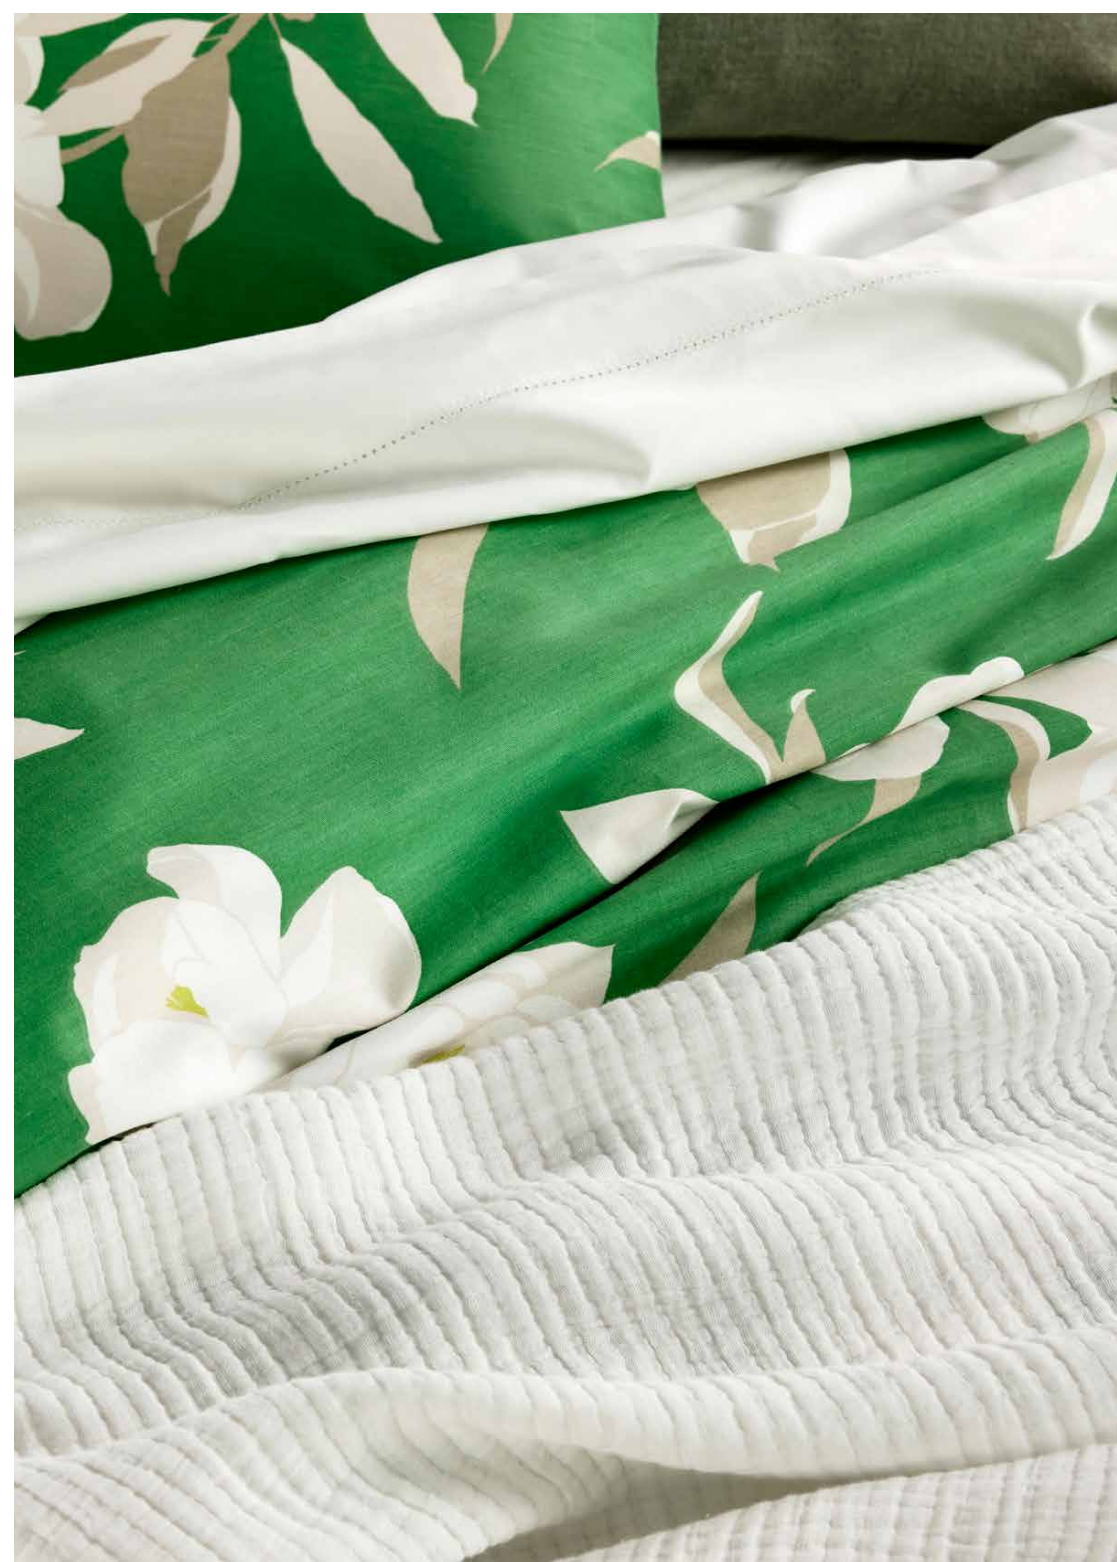

For a bolder look, juxtapose the florals with striped throw cushions like Stanfield or Henson.

Guests will be green with envy when you continue the colour theme throughout your home, with robes and towels in the same vivid hue — that also boast incredible texture.

MARMALADE DREAM

Paint a picture of idyllic surroundings with colour combinations that easily, and artfully, set the mood. Harmonious shades that instantly evoke feelings of warmth.

Reilly Stripe, a beloved addition to our Reilly Collection, is now available in marmalade. With its modern yarn-dyed stripe, it evokes nostalgia — reminiscent of warm summer days, keeping your toes toasty buried under the warm golden sand.

A soothing foundation for your bedroom, it's crafted from organic cotton — loved by you and nature alike.

Continue the sun-drenched atmosphere with home decor that boasts a complementary colour palette. Whether artfully arranged, or casually thrown on for a laidback look, style cushions like Arby, Britten and Kolsby.

Drape the Reilly Stripe Bed Cover on top in the same shade, or layer on our Elks throw in clay or peach bloom — with its oversize check design and block colour reverse, it's twice as nice to style.

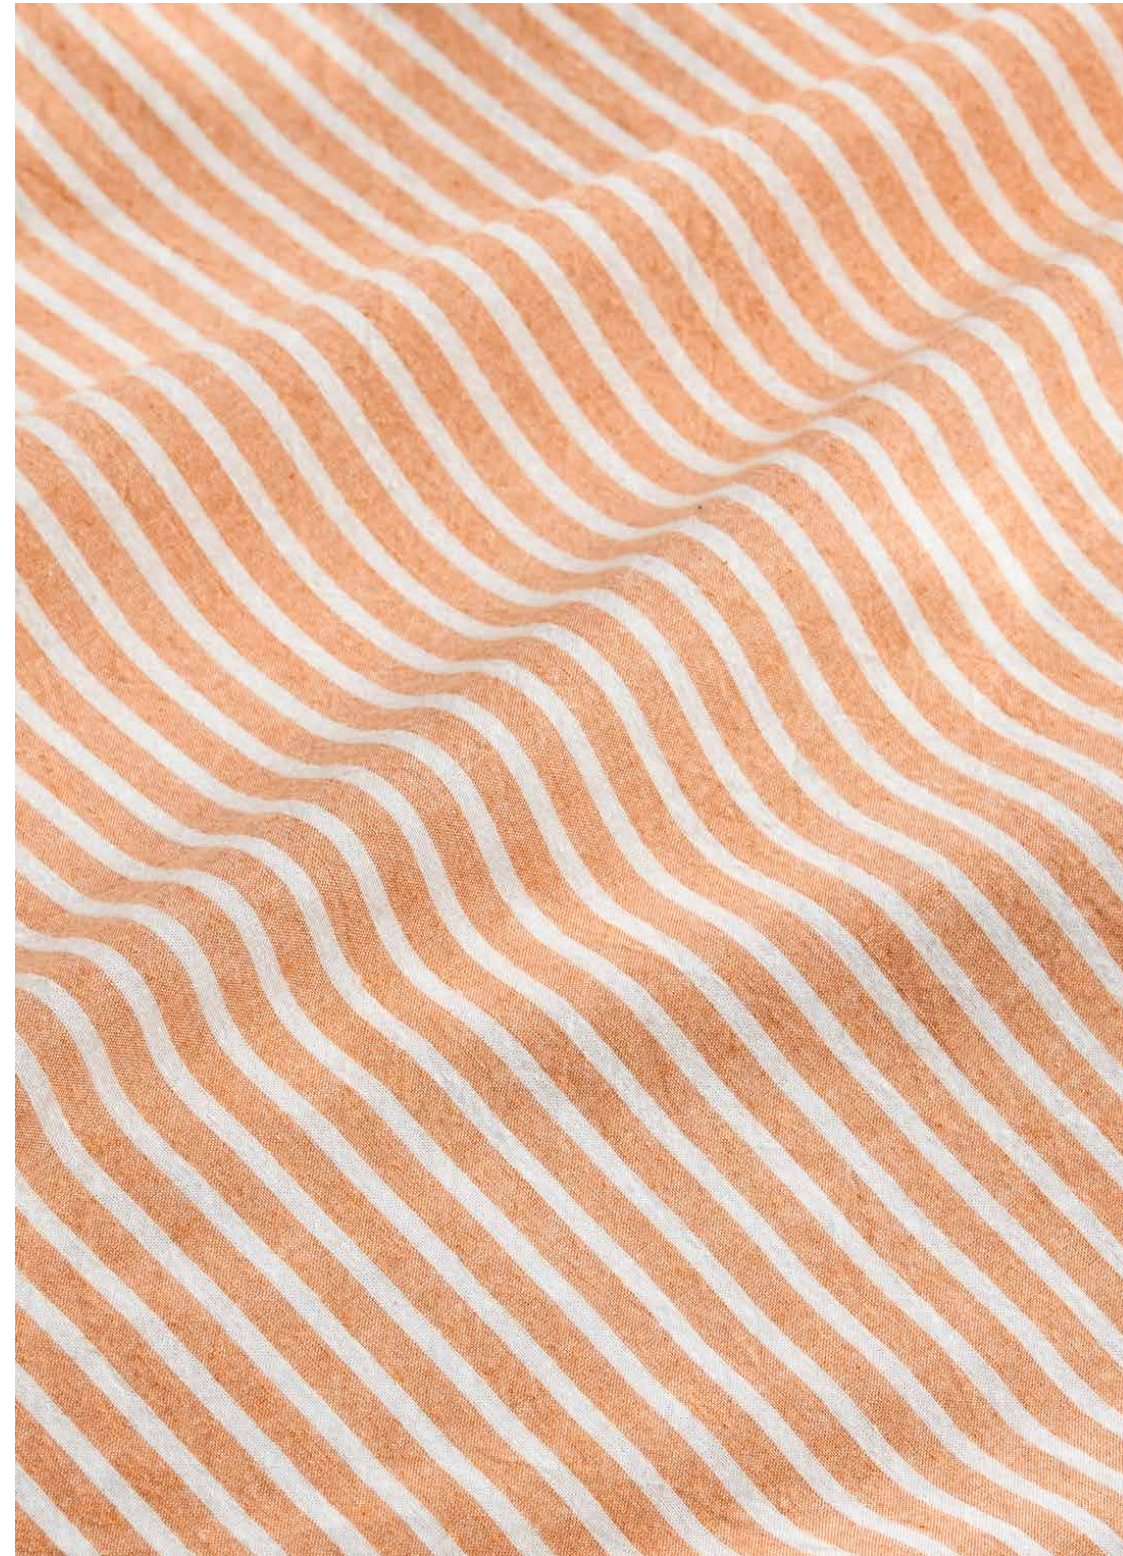

There's no rule that style has to end at the bedroom door — or even the front door. Extend the colour of the season into your bathroom with our Luxury Retreat Towel Collection in marmalade. Mums and mums to be will rejoice with our Maternity bundle, in its inviting rockmelon hue.

Celebrate this bright shade with Lovett — its multi-purpose use means it works as a beach towel, throw or picnic rug. The hammam style face, bold graphic stripes and cut fringing just add to its appeal.
