0 Comments

Swarovski supported the luxury retailer in launching a limited edition sustainable collection, designed by Aude Castéja of Monographie.

The exclusive capsule collection focuses on conscious design, and is made with ECOtone 100% organic extra-long staple cotton and embellished with upcycled Swarovski crystals.

Castéja has reimagined the classic women's shirt across six designs in a limited edition of 500 pieces. The minimalist silhouettes of the four tops and two dresses feature dazzling crystal accents on sleeves, cuffs, collars and cut out shoulders, as well as all-over crystal embellishment. Each look is a sustainable and stylish choice for the eco-minded consumer.

The Monographie x Lane Crawford collection is another example of Swarovski's commitment to driving positive change and creating a more responsible fashion industry.

The collection is available on Lane Crawford's online store as a global exclusive and is also for sale in all Lane Crawford stores in China and Hong Kong.
