

GET IT ON TIME

Hello Kathryn,

Thank you for signing our petition to make sure that people with Parkinson's get their medication on time in hospital. Because of you, momentum is really building around our Get It On Time campaign.

We need to keep this momentum going – we need you to educate your local member of parliament on how important this issue is. When they understand the urgency, our hope is that they'll take it to the relevant decision makers. [Can you take a moment to email them, asking them to take action?](#)

We need medication on time - every time

There are still too many people with Parkinson's going into hospital who are not being given their medication on time. The impact of this delay can be devastating, leaving patients unable to walk or talk, and having to stay in hospital longer than necessary.

This can end up costing the NHS millions of pounds, which could be avoided. The NHS needs to take concrete steps to roll out training and implement processes that

will fix the problem. You can help by [contacting your elected representative](#) and asking them to push for improvements.

Take action

Thank you,

Lloyd
