

# Pluto in Astrology

*Pluto transits 12-30 years per sign. Pluto has a 248-day solar orbit through the zodiac.*

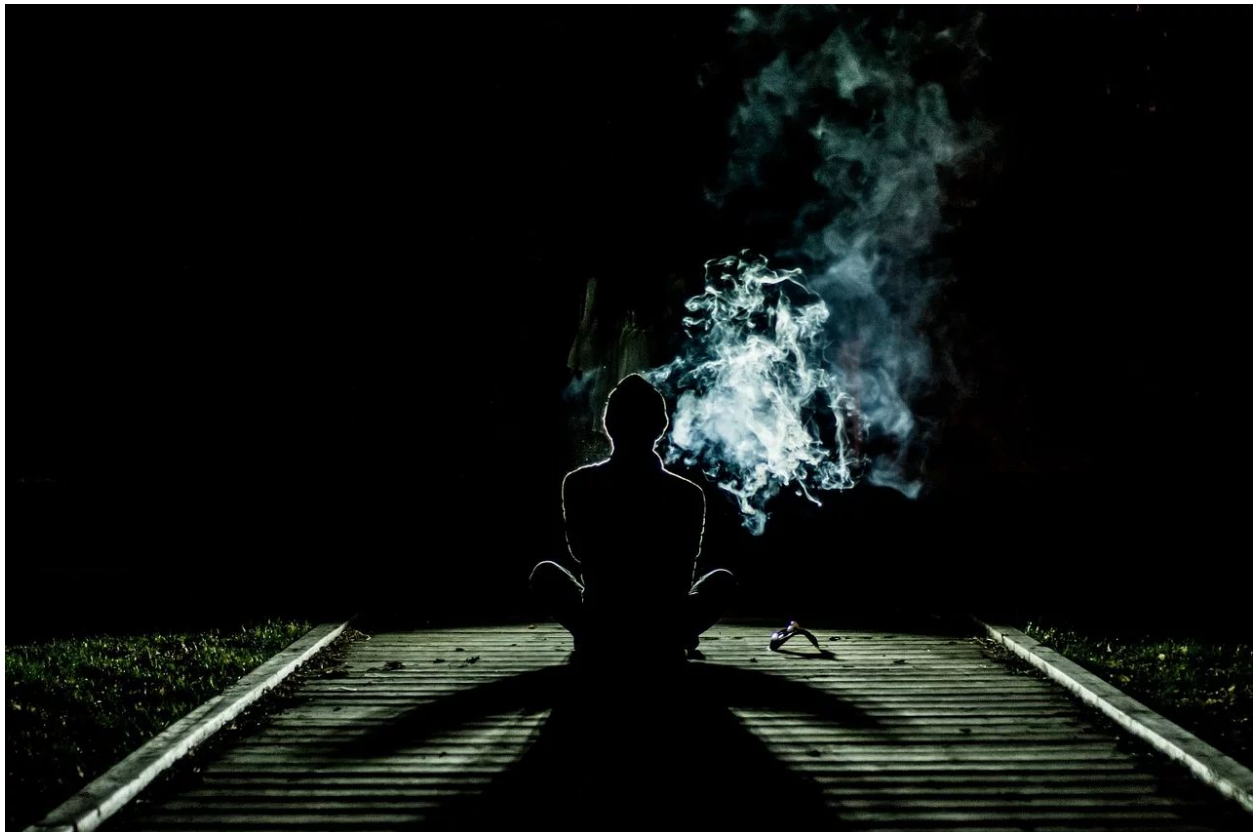

---

**The Basics**

The god of the underworld. This dwarf planet thrives way out there on the perimeter of our solar system. Pluto, a cold mysterious realm full of icy glaciers and rugged terrain. Pluto is metamorphoses, the staunchest vices to be broken over a lifetime. Pluto will boost any section of your chart it comes in contact with. In Greek mythology, Pluto was Hades and ultimately represents the more positive archetypal underworld king. Plutonic energy is often misinterpreted, for Pluto highlights beginnings and endings, crisis moments which often lead to evolution. You must break a few eggs to make an omelet and oval-shaped Pluto loves to break eggs. The breakdown of current negative paradigms into micro pieces allows for swift recycling of high-intensity moments, that in turn allows oneself to reset and reboot transformed. The Phoenix rising out the ashes. Gandalf and the Balrog! Occupying the 8th House which denotes the occult, psychic realms and collective sub-conscious. Pluto is a higher octave of Saturn and rules Scorpio with water elements and fixed qualities.

## Meditation

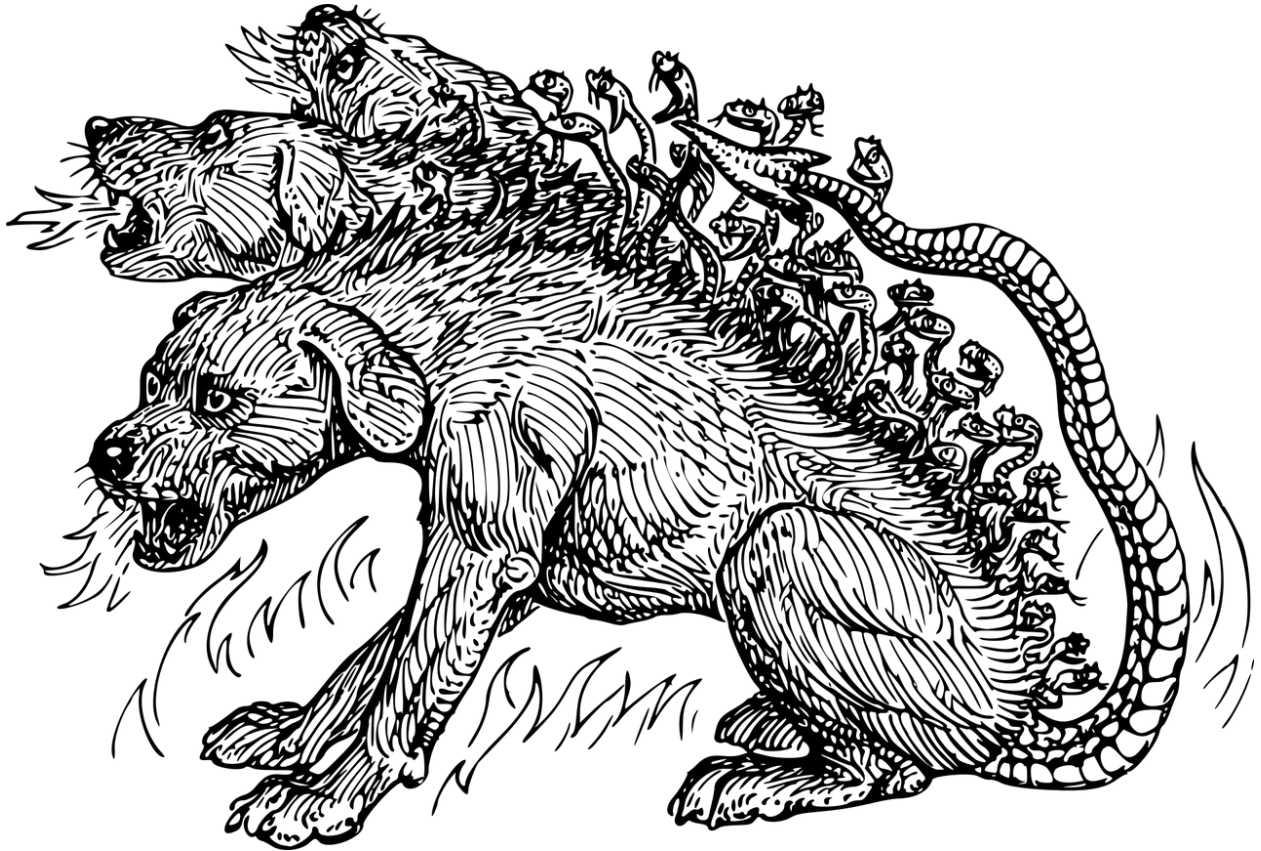

- **Tuning Pitch Hz**
  - 445.26

- **Audible Frequency**
  - 140.25
  
- **Audible Tone**
  - C#
  
- **Octave Number**
  - 40
  
- **Color**
  - Black
  
- **Body Part**
  - Reproductive Organs
  
- **Sephirot**
  - Keter

---

## Characteristics and History

*Hades Greek god of the dead and king of the underworld. Portrayed, his 3 headed dog Cerberus*

Pluto was somehow known to the ancients even though modern scientists rediscovered it in 1930. Historically one can see why Pluto was associated with such mystery, it simply was the furthest out there. The majority of myths and legends revolving around Plutonic energies involve transforming from the physical to the spiritual plane. A renewal, rebirth or final decision. In the Illiad, Plouton was the overseer of all underworldly wealth and his symbol the cornucopia or horn of plenty, thus adding a positive spin the Hades archetype. The overall theme in any culture is that change is constant and with proper meditation, this change can be fluid. Plutonic resonance can not only be harnessed but used as an aid in the most vital crises or rebirth. The stoics recognized Pluto as the lower realm of air, a testing grounds prior to the souls journey to the rarified ether.

### **Things to Ponder**

*When was the last time you went through a rebirth in an aspect of your life? What did you learn? Do those same principles apply to your current situation? How would you do it over again?*

*The spiritual journey begins when one realizes that accessible hidden realms lay within arms reach. One must get in tune with the subconscious to fully appreciate the brilliant scope and raw power of this plain. Take 5 min and deep dive into an ocean of thought. Allow yourself to remain whole and observational. What you find may greatly enrich your experience.*

*For a creative push focus on Plutonic energy and dare to think abstractly. Whether it be during a nature hike or reading your favorite novel. Exercising your imagination and reaching those inner catacombs of your intellect can prove fruitful.*

---

### **Want to show the world you love Pluto?**

Love your sign and want to fill your home with representations of your astrological self? We've built a beautiful poster that incorporates all the information you just read through and more, check it out!
