

Saturn in Astrology

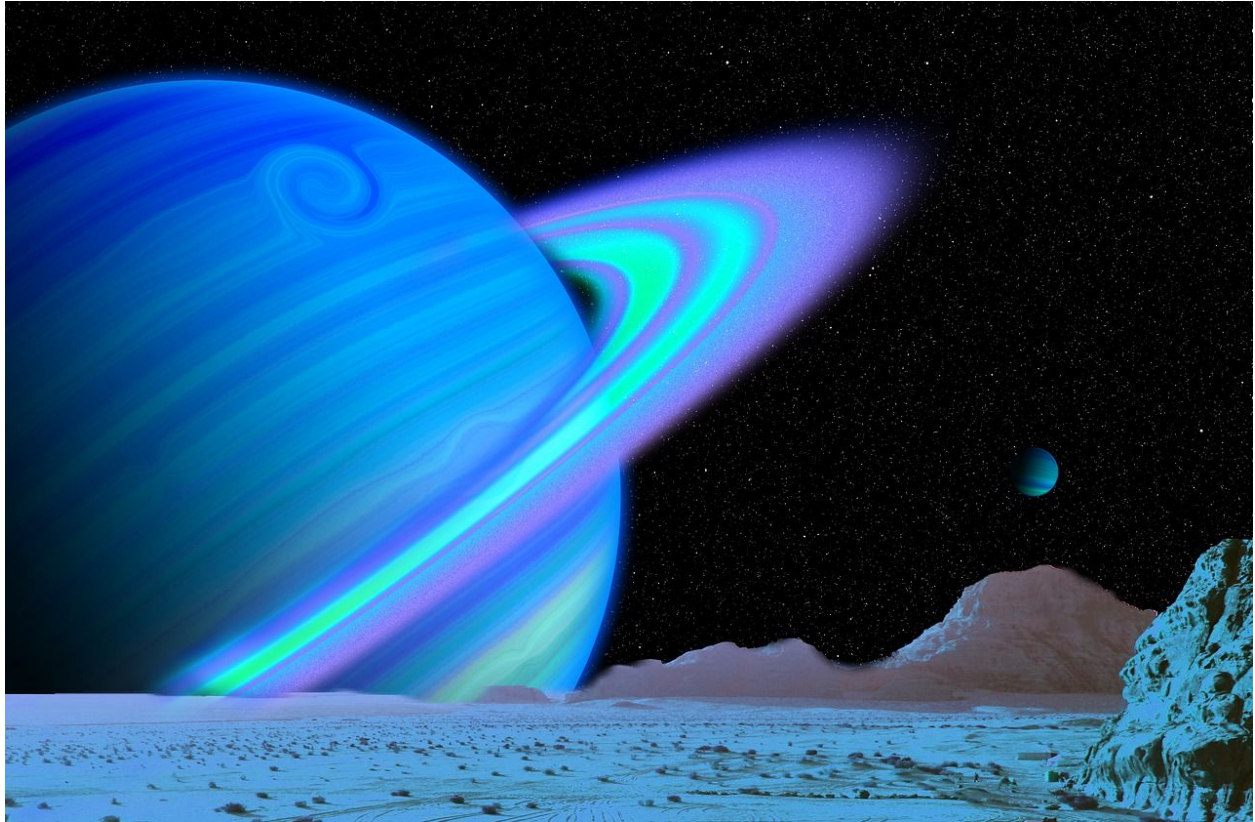

Saturn transits 2-3 years per sign. "Father Time" has a 10 759 day solar orbit through the zodiac.

The Basics

Oldman Saturn brandishing a scythe. The great regulator. Saturn's rings have mesmerized esoteric scholars for thousands of years. Cold treacherous terrain coupled with it being a gas giant makes Saturn literally and metaphorically carry weight. Like tuning into Saturn's resonance and contemplating its many lights forces one to stop, freeze and strictly analyze in hopes of bringing more meaning and substance to your world. Saturn teaches the disciple to evolve through any of life's adversities, resulting in a transformation by a sort of galvanization. Structure, responsibility, and discipline are the framework for ambition. Saturn returns which occur every 28 years can offer up a lovely reminder of a job well done during the previous stage. Or, on the flip side, a Saturn return can be much like the sickle cutting through the grass, pruning things out of your life for new growth. The Zodiac decans Saturn has influence over belong in the earth signs, primarily Capricorn, Taurus, and Virgo. Coincidentally happens to be the signs that symbolize Christ, Buddha and Mary. The masters of initiation, for all seekers of truth and light,

must apply it to the world at large to be considered a beacon of light. Saturn occupies the 10th House which symbolizes career, reputation, and ambition. In Capricorn, Saturn has Earth Elements and Cardinal Qualities.

Characteristics and History

Anu in Sumeria, Kronos in Greece, Saturns reign displayed a golden age of peace and prosperity

Saturn has always played a significant role in all myth and legend. All over the world Saturn holds a lofty place in pantheons and god tables. According to the Sumerian tablets Enema Elish and the Atra-Hasis, Anu symbolizing Saturn was the god of heaven and father to Enlil and Enki. We march forward into Greece and find Cronus one of the 12 Olympians and god of agriculture, liberation, wealth, and time. In the modern world, we still fight for these causes, the fight for clean organic food, liberation from strife and bigotry and worldwide wealth gaps. Cronus and Saturn's harmonic resonance is just as applicable today as it was for our global ancestors. In Hindu mythology, Saturn was known as Yama the governor of longevity who carries forward the duties from Shiva. The Son of the Sun, Saturn and the Sun diametrically opposed. Niche'

characteristics of Saturn include working patiently, being economically sound, the ability to be tight-lipped and a keen sense of self-control. Saturn will punish you as well, some afflictions can lead to poor health through improper diet and poor scholastic marks from not properly using the 24 hrs in an Earth day to form solid study habits. Saturn's higher octave is Pluto. Saturn is exalted in Pluto, rules Capricorn, its detriment is in Cancer/ Leo and falls in Aries.

Things to Ponder

A day has 24 hours. How do you use it? Keep track of what you do every day all-day, at the end of every week allocate more time to the most pressing duties or obligations. Analyze the data and craft your 24 hrs as you see fit to achieve maximum success.

Is adapting to new growth hard or you? Or are you a master at accepting the gifts from the universe with open arms. Change is constant. Saturn resonance and mythology teach us to always take heed of Father Time and the cycles in our own lives.

Fear can be debilitating and fear can arrive in many forms. Understanding the many lights of Saturn and integrating them consciously into your life can have resounding effects. Fear stems from simply not knowing, Saturn's light properly harnessed will obliterate your fear and structure your inner framework to succeed during life's hardest battles.
