The Basics

Uranus an ice giant containing 27 moons has intrigued esoteric researchers for ages. In ancient Greek Mythology Uranus was known as Ouranos, the god of “Sky” or when analyzing the etymology of the word we arrive at “The Rainmaker”. Rightfully named this enigma of planetary energy ushers in change and allows the initiate the compacity to access the higher realms of cosmic truths. Uranian resonance specifically applies to the rebel, the outcast in search of knowledge, in hopes of breaking the mold. All change takes place over time and this slow-moving planet has a profound effect on funneling in “New Age” energy. Uranus is the planetary ruler of Aquarius the sign of forward-thinking and liberation. Uranian energy breeds the genius, and with all brilliance comes a bit of a dark streak. Afflictions to Uranus can cause nitpicking, mood swings, isolation and accidents. Its no surprise Uranus rules electronics and considering we are entering into the Aquarian age expect monumental leaps in technology, which in turn will create social change. Uranus was discovered in 1781 by astronomist William Herschel, however there is evidence to suggest the Sumerians had knowledge of Uranus 5000 years ago via *cylinder seal VA 243* which depicts an entire scale model of the solar system. Uranus rules the 11th House, which represents friendships, ideals, and wishes. Uranus is exalted in Scorpio and its detriment is in Leo, falling in Taurus. Uranus rules over the ankles and birthstone is Blue Sapphire and Amethyst.
