PRO Home Fabric Care Tips

With more time spent indoors this year than ever before, there's no doubt that your interior fabrics are probably taking a beating. Here's a few common household stains and how to treat them:

Wine Spill on the Couch

A simple slip of the hand and your couch could fall victim to red wine stains. As soon as the spill occurs, follow these steps:

1. Mix one tablespoon of liquid hand washing detergent with two cups of cool water
2. Use a sponge to gently blot the stain with the detergent mixture
3. Next, blot with a cloth until the liquid is fully absorbed
4. Sponge with cold water
5. Blot dry

Salsa on the Carpet

Taco Tuesday and movie nights call for chips and salsa. Keep the good stuff from damaging your carpet if you spill by following these steps:

1. Use a cloth to gently pick up any large chunks
2. Mix one tablespoon of liquid hand washing detergent with two cups of warm water
3. Use a sponge dipped in the mixture to blot the salsa stain
4. Dab with a cloth until the salsa is fully absorbed
5. Sponge with cold water
6. Blot dry
