

Happy 3rd Birthday, Waverly!

This is what was going on the year you were born...

- The Top Song was “Love Yourself” by Justin Bieber. As you get older, you will understand that you’ll never be able to love yourself as much as your parents do, but always remember to love yourself, treat yourself kindly, and never allow anyone in your life who doesn’t love you like you deserve.
- A Popular Movie was “Finding Dory.” As you get older, remember to “just keep swimming!”
- The world population was 7,300,000,000. And of the huge population, there is no one like you!
- The classic “Happy Birthday” song was copyrighted. Don’t worry, you will still hear it every year!
- Simon Smith legally changed his name to “Bacon Double Cheeseburger.” Aren’t you glad your parents gave you such a beautiful name?
- The cost of a 30 second Superbowl ad was 5 million dollars. To your parents, 30 seconds with you is and will always be priceless!

We hope this gives you a small glimpse at what life was like the year you were born! We hope that this birthday, and every birthday through your years, is as special as you are!
