

**MULTIMEDIA: Slide editing and production for MSN's Home Page and Tablet platforms** | I wrote headlines and helped select photos for breaking and trending news.

The screenshot shows the MSN homepage layout. At the top left is the MSN logo. To its right is a search bar with the Bing logo and 'web search' text. Below the search bar are navigation links for news, sports, entertainment, money, video, living, health, and autos. On the right side, there are 'page options' and a 'Microsoft' logo. The main content area features a large photo of police officers at night with the headline 'Texas shooting suspect collapses in court'. To the right of this photo is a weather widget for Redmond, WA, showing a temperature of 65° and a 'Clear' forecast. Below the weather widget are social media buttons for Twitter (follow) and Facebook (like). Further down are buttons for Outlook.com, Skype, and Bing Maps. To the right of the weather and social media buttons is a purple promotional box for MSN with the text 'STAY IN THE KNOW' and a 'MAKE MSN YOUR HOMEPAGE' button. Below the main photo and weather widget are four news category tiles: 'news', 'sports', 'entertainment', and 'money'. Each tile has a small image and a headline. The 'news' tile has a headline about Gaza death toll. The 'sports' tile has a headline about Ronda Rousey. The 'entertainment' tile has a headline about George Clooney. The 'money' tile has a headline about fast-food restaurants. Below each tile is a list of related news items.

## MULTIMEDIA: Facebook posts for MSN |

I helped increase readership by posting news of the day on Social Media platforms including Facebook. To do this, I selected engaging content to encourage users to share posts and start a conversation about the stories.
