

DISRUPTIVE & UNCOMFORTABLE FACTS

In the United States, Black individuals are **40% more likely** than other racial groups to live in areas affected by increased heat-related deaths.

DISRUPTIVE & UNCOMFORTABLE FACTS

Hispanic and Latino individuals are **43% more likely** than other racial groups to live in areas where labor will be impacted by climate change.

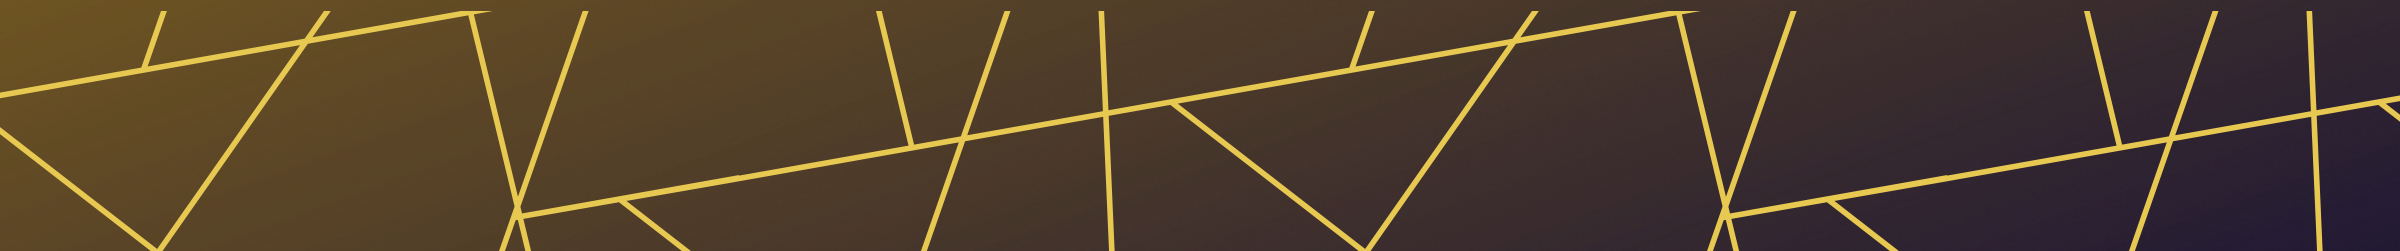

DISRUPTIVE & UNCOMFORTABLE FACTS

Climate impacts will affect agriculture the most, a key sector in the poorest countries and a major source of income, food security, nutrition, jobs, livelihoods and export earnings.

DISRUPTIVE & UNCOMFORTABLE FACTS

In addition, the poorest regions of the world — Sub-Saharan Africa and South Asia — will be hit the hardest by climate change despite being the least responsible.

THE IMPACT

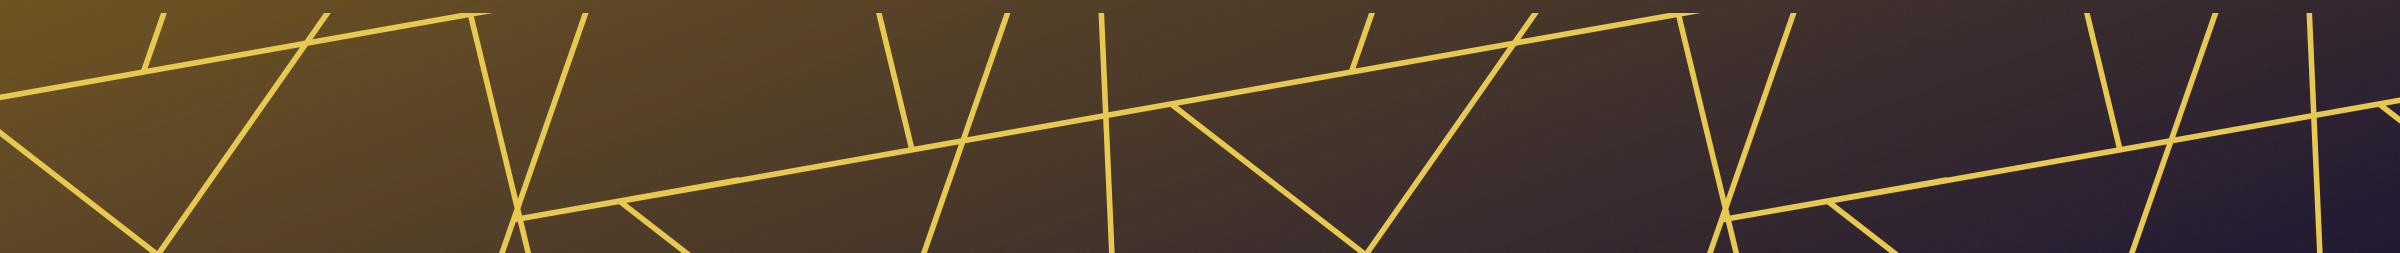

More than 130 million people could be pushed into extreme poverty by climate change by 2030

THE GOOD NEWS FINALLY . . . RESULTS

We have an example of a collaboration with a local, Black-led, community-based organization that is advancing work to restore coastal habitats that will mitigate storm-caused flooding.

The project is improving biodiversity, building local capacity and strengthening the local economy through job creation.

TWOLYNCHPINROAD.COM

“The only way to become excellent is to be endlessly fascinated by doing the same thing over and over. You have to fall in love with boredom.”

- ATOMIC HABITS, JAMES CLEAR

HERE'S THE REALITY

You don't have
to be amazing.
You don't have
to be great.
You just have to
be proficient.

THERE I SAID IT!

THE BIG PICTURE

If we learn from
positive lessons amid
a catastrophe
infrastructure can be
built to make a real
difference.

WHAT WE KNOW TO BE TRUE

“The most vulnerable people in the most vulnerable countries will actually get more vulnerable from climate change. [They] will get poorer and more vulnerable from food insecurity, and will live in countries that are experiencing acute debt crises that are creating political instability.”
