WORK EXPERIENCE

Reporter, Photographer, Videographer, Editor

Ashland Times Gazette - November 2016 to September 2021

As a photographer, reporter, videographer, and editor, I balanced multiple assignments with daily deadlines, writing feature articles as needed for this six-day newspaper (using the Associated Press style), photographing news and sports, and producing video packages. Prior to the pandemic, I also developed and produced a weekly arts and entertainment calendar and a column of area "Best Bets." As a "digital first" medium, we wrote for the web, using SEO best practices, and studying website analytics. I received the Best Photographer award for my newspaper's division in the Ohio Associated Press Media Editors Awards for a portfolio of my photography work in 2019. I also produced video packages for the website and social media pages, acting as the videographer, editor, and graphics designer. I worked full-time for the newspaper until August 2020 and moved to freelance status, so I could take care of my father, as he battled stage IV bile duct cancer.

Reason for leaving: My father passed away in October 2021, and I needed to take time off of work to settle his estate.

Photographer and Videographer **Self-Employed**

July 2004 to November 2016

For 12 years, I was self-employed as a photographer and video producer for advertising and news agencies on a local, national, and international level. These are examples of my clients:

- Photographer, BLOC Marketing: Photographer for marketing company representing Budweiser
- Photographer, Richfield Script Type: Photographer for Richfield newspapers
- Photographer, Premier Event Services: Event photographer for entertainment company
- Photographer, Eivan's Photo: Photographer for weddings and events
- Photographer, George Street Photo: Photographer for weddings and events
- Videographer, Ruptly News: News photographer for Berlin, Germany, news service
- Videographer, Barcroft USA: News photographer for international news service
- Videographer/Editor, Clatter & Din: Produced, shot, and edited commercials for Seattle-based company, working with local Cleveland television stations
- Videographer/Editor, Knowlera Media: Produced, shot, and edited news packages for Washington D.C.- based company, working with Yahoo! local pages

Multimedia Producer, Writer, Editor, Photographer

Cleveland Jewish News - February 2016 to May 2016

In this role, I built the website daily, photographed news stories, formatted articles for the web, proofread print pages, wrote feature articles, and produced video packages for this weekly newspaper, performing all the videography and editing. I received a second place award from the Ohio Associated Press Media Editors for one of my video features.

Reason for leaving: This was a temporary position.

Multimedia Producer, Web Producer, Graphic Designer

Cleveland.com - June 2007 to February 2009

During my time at the website for the Cleveland Plain Dealer, I built the home, news, and business pages daily, which included managing editorial content, formatting stories for the web, and photo editing. I also regularly produced multimedia content, conceptualizing new video series, designing motion graphics, and performing all the videography and editing.

Reason for leaving: A quarter of the company was laid off, and I was one of four let go from my department.

Web Producer, Writer, Multimedia Producer

Ohio.com - July 2004 to February 2006

While working for the Akron Beacon Journal's website, I played an integral role in one of the redesigns of the site's home, sports, news, and business pages, which included implementing a new layout. My daily duties included managing the pages' daily content, formatting stories for the web, and photo editing. I also produced video packages and wrote feature articles.

Reason for leaving: This was considered a temporary position. When the parent company (Knight Ridder Digital) was sold, my position was eliminated.
