

Product Copy: Rocky Boots

The Rocky® Broadhead Waterproof Insulated Outdoor Boot has flexible performance and great warmth for cold days of hunting.

Rocky Boots® designed this men's hunting boot with 800 grams of 3M™ Thinsulate™ Insulation for great performance even in the coldest winter temperatures. Never cut short a day in your tree stand because of the weather. This is a warm, insulated boot.

To further neutralize the elements, Rocky guarantees that this waterproof boot will keep your feet dry in water, on muddy trails, and across snowy ground. It's made with the Rocky Waterproof system.

Featuring Venator™ camo ripstop nylon, this boot resists abrasions and can handle tough underbrush. The light and flexible cement construction is just what you want for easy movement. This is complimented by the great traction of the EVA/rubber outsole.

For comfort during hours of wear, the men's boot has an EVA footbed and a moisture-wicking mesh lining that fights sweat to help keep your feet cool.

Looking for the warmest hunting boot? Get one that really supports your hunting needs. Get this Rocky Broadhead.
