

## **JumpStart Coffee - Indonesia's 1st Ever Smart Coffee Machine**

Jakarta, Indonesia – The future of coffee is here. Bid adieu to mediocre coffee vending machines and say hello to **Jumpstart Coffee, Indonesia's first ever smart coffee machine**. Distilling **quality coffee** from **quality beans at any time of the day**, Jumpstart Coffee has you covered 24/7 whether you're craving for a cup of joe to wake you up in the morning or to keep you focused in the evening.

Established in 2017, our smart coffee machine can now be found in over **500 locations** spread across office buildings, hospitals, apartments, and universities all over Jabodetabek - where we exist either as **smart coffee bars** or **take-away coffee labs**. You can't beat the convenience and efficiency of having a cup of coffee in your hands made for you in minutes, available anytime and anywhere.

As pioneers of self-serve coffee shops, Jumpstart Coffee is truly ahead of the game. Coffee lovers can **#JumpStartYourDay** simply by pushing a few buttons to enjoy a warm (or iced) cup of freshly brewed beans. Starting from a modest 10k rupiah, our smart coffee bars are equipped with a selection of **over 30 varieties** of affordable coffee choices and pick-me-up beverages. Jumpstart Coffee allows you to fulfill your coffee thirst with zero human contact and automated, cashless payment, thanks to its advanced AI (Artificial intelligence) integration and cutting-edge hardware.

Constantly trying to elevate your coffee experience, anytime, anywhere, Jumpstart Coffee is also available via food delivery app GoFood. Keen on introducing the Jumpstart experience to your loved ones at home? Purchase our coffee drip bags and premium coffee beans through our website or through [Tokopedia](#), [Shopee](#) and [Blibli](#). Don't forget to check out our Instagram [@coffeejumpstart!](#)
