- Use your own google folder in our class google drive for this freewrite exercise.
- Failure to do this will reduce participation grade.

Class Work - Scholarly Article

Tuesday we practiced summarizing a short narrative written by a classmate. Today we will practice summarizing a short scholarly article.

- Open document located in Group Work folder for today titled “Summary Practice for Students”.
- Review/Read out loud (students take turns)
- Think about and be prepared to answer the following questions
 - ◆ Who is the author and what are the author’s credentials
 - ◆ Who is the target audience?
 - ◆ What is the purpose?
 - ◆ What is the genre?
 - ◆ Where is it published?
 - ◆ What is the main point (e.g., what is the author asking the audience to know, believe, or do)?
 - ◆ What claims are made to support the main point?
 - ◆ What evidence is provided to support each claim?

Group Work - Summarizing

Work together in your group to summarize the article we just read.

- Create a new doc in our group work folder for today
 - ◆ Put your name as the title.
- Each person will write their own summary.
- Share ideas among members in your group to help each other out.
- Use JC pgs 76-77 as a guide as needed.
- Be prepared to share your summary out loud with the class. (call on volunteers as needed)

Asking Research Questions

In preparation for your proposal assignment, you need to come up with a research question that addresses a problem that, through your research, you can propose a solution.

- Look over and choose a topic from the provided research packets of secondary sources.
- Develop a Research Question
 - ◆ Use JC pg. 78
- A couple volunteers share your potential research question.

NOTE: These are also sources from which you will create your annotated bibliography due next week.
