

# THE MAGICAL SHOES

Hey kids! Do you like to read or listen to interesting stories about magical things? ...Yes?

Great! Today I'm going to tell you an amazing story about magical shoes. I hope that you'll enjoy it.

Let's start then!

There once lived a young little boy whose name was Timmy. Timmy was a very nice boy. One day he said to his mother, "Dear Mom, my shoes have become too old now.

They are even started to break.

May we buy a new pair of shoes so that I can go to school easily?"

His mother said, "Sure my son, tomorrow when you will return from school, we will go to the shop and will buy a pair of new shoes for you."

The next day, they both visited the shop. Timmy saw a pair of shoes which he loved. He asked his mother to get those shoes for him but they were too expensive for them so they purchased another pair.

Timmy became sad because he wanted to buy the shoes which he liked. He returned home in a sad mood and placed his shoes in the cupboard. He then completed his homework and went to play games with his friends.

At night, when he was trying to sleep, he saw rays of light coming out of the cupboard.

He tiptoed towards the cupboard because he was very surprised and curious to find out what's inside it.

When he opened the door what did he see?

Wow! That shining light was coming out from his shoes.

He picked up his shoes and wore them.

As soon as he wore those shoes, he entered into a magical land. He was surprised and also very happy. There was everything in the magical land which he liked, such as magical hats, magical flowers, jumping boots, flying cars and much more.

There he also saw fairies who were talking like humans.

He looked everywhere to find out more interesting things. Suddenly, he saw a box which looked like a treasure box. He ran towards it but all of a sudden, he was in his room.

He was astonished that what happened. When he looked closely at the shoes, he found a timer which means he can spend only thirty minutes a day in the magical land.

The whole night he kept thinking about the box. The next day, when he returned to the home he was still thinking about that mysterious box.

He changed his clothes, ate lunch and moved towards the cupboard to enter the magical land. He put on his shoes and the next moment, he was in the magical land.

After entering the magical land, he immediately ran towards the mysterious box and started trying to open it but it was stuck.

Suddenly a fairy came and told him that it can only be opened by completing a task. Timmy asked, "What type of task?" The fairy replied "The box has empty spaces for three items. You have to find out and place those items in their missing places. These include a teddy bear, a flower-shaped key and a small pebble."

As soon as Timmy returned to his room, he started searching for those items but failed to find anything. He remembered that he has an old teddy bear in his toy box.

He searched out for that bear but it was too big to be fitted in that box's space.

He also had many keys with different shapes but none of them was flower-shaped. The whole day he tried to search those items but failed.

The next morning, he woke up at 10 o'clock as it was Sunday. After getting fresh, he took breakfast, watched his favourite cartoon show and again went to sleep. When he woke up, he was surprised as his home was beautifully decorated. Today was Timmy's birthday so his parents arranged a surprise birthday party for him. His friends were also invited to his birthday. He cut the cake and received gifts from guests as well as his friends. He opened all the gifts and each gift was so beautiful.

Now it was the turn of the last gift which was presented by Timmy's best friend. As soon as he opened it, he jumped with joy.

Hurray! It was a teddy bear. He remembered that he needed a teddy bear to unlock that mysterious box. He was very happy. Now only two items were left to be discovered. One was flower-shaped keys and the other was a pebble.

One day, Timmy went to play cricket with his friends but there was no ball to play with. He asked his friends to just wait a while. He came back to his home to take his ball to his friends. He opened the box of his sports equipment. When he saw the keys of the box, he was surprised and happy as they were flower-shaped. Those keys were needed to be fitted in that mysterious box. Now only one thing was left to be discovered which was a pebble.

On Sunday, Timmy's family planned a picnic. In the afternoon, they reached the beach. It was beautiful weather. Timmy enjoyed a lot. He made sandpits, ate delicious lunch and played games. When they were deciding to return home, Timmy saw some pebbles near the sea. He ran and picked up one of them. He was excited that now he has all the items that were needed to open that mysterious box. After reaching home, he changed his clothes, ate dinner and went into his room. He hurriedly opened the cupboard, put on his shoes and then he was in the magical land.

As soon as he entered the magical land, he rushed toward the box and started fixing those items. He first fixed the teddy bear, then the flower-shaped keys and at last the pebble. Timmy was so excited to know what's inside the box. The box started to move and then it suddenly opened. What was inside it? Timmy cheered with joy as the box was filled with his favourite candies and chocolates.

He collected lots of them. He put some candies in his right pocket, some in the left and held a lot of chocolates in his hand. When he returned to his room, he enjoyed his favourite chocolates and candies and stored the remaining in his cupboard to give to his friends. After enjoying that yummy treat, Timmy felt tired and went to sleep.

THE  
END!
