

TIMMY- THE BLUE EXCAVATOR

There once lived a cute blue excavator whose name was Timmy. Timmy had a big home named “Jillian’s Heavy Equipment Operations”. He lived with many yellow excavators but he was the only one with a blue colour.

Every day, many people visited his home to rent different construction vehicles for making homes and buildings.

One day, a builder came to take an excavator.

Timmy was excited that the builder would choose him but the builder selected a yellow excavator and said that he didn’t like blue excavators. Timmy became sad.

Daily he waited for people who would rent him but nobody liked him due to his different colour. His fellow excavators mistreated Timmy and they used to make fun of his colour. Nobody accepted him except Tcharlie who was Timmy’s

brother.

One day, Timmy was very sad. Suddenly, Tcharlie came and said: “Little bro! Don’t be said. You’re very strong. Don’t worry if no one likes your colour. Trust me, soon someone will purchase you and then you will show your skills to everyone.”

Timmy became happy and decided that he would prove to be the best excavator.

A few days later, a man came to Jillian’s Heavy Equipment Operations and said to Jillian “The King of the Town had ordered me to build a beautiful house for him inside the mountains so I need the best excavator.” Jillian said, “I’m sorry but all the excavators are already booked except Timmy. Can you please take it for now?” The man decided to rent Timmy.

After that, the man along with his companions (builders) moved towards the mountains. When they reached the right place, they started digging first. They were astonished to see that Timmy was super-fast as it dug the ground very quickly.

The next step was to cut the mountains. They all tried their best to cut but failed.

Timmy had special cutters which he used and created a path inside the mountains. They all moved inside the path along with Timmy. Suddenly, they heard some noise. Some big rocks had fallen from the mountains and the opening of the path

had blocked completely. Everyone was afraid as there was no light and no way of getting outside. Timmy illuminated his bright lights and used his strong hands to push off those rocks. Timmy succeeded in it and the path opened again. Besides, Timmy also helped the builders in constructing and decorating a beautiful house for the king. King's house was completed very quickly.

The King was delighted to see such a beautiful house. He arranged a feast and invited everyone to his new home. On the feast, the King gave lots of gifts to the builders for building such a beautiful home so quickly. They told the King how Timmy helped them in building his house.

The King awarded Timmy a badge of “THE BEST EXCAVATOR”. Timmy became everyone's favourite excavator. Everyone realized that although Timmy looks different than other excavators he is not inferior to them and is very powerful. Timmy then always helped others with his special skills and lived happily with his friends.
